<b>Strokovna konferenca</b> Professional Conference	12
<b>Tloris sejma in seznam razstavljalcev</b> Exhibition Floor Plan and List of Exhibitors	23
<b>Predstavitve razstavljalcev</b> Exhibitors' Presentations	33

\*Organizatorji si pridržujejo pravico do spremembe programa.

\*The Organizers reserve the right to make changes to the programme.

Slovenska obrambna industrija je dinamična in inovativna gospodarska panoga, ki združuje vrhunsko znanje in najsodobnejšo tehnologijo ter predstavlja most med raziskovanjem, inovacijami in praktičnimi potrebami oboroženih sil. Podjetja s tem prispevajo k nacionalni varnosti in odpornosti ter krepitvi konkurenčnosti Slovenije na globalnem trgu.

Predstavitev slovenske obrambne industrije v tovrstnih katalogih odpira vrata novim priložnostim: od krepitve izvoza in pridobivanja tujih partnerjev do povezovanja v skupne razvojne projekte. Prav mreženje in sodelovanje sta ključ do uspeha, saj omogočata izmenjavo znanja, dostop do novih trgov, tehnologij in najboljših uporabniških izkušenj.

Naša podjetja nedvomno dokazujejo, da so lahko enakovredni in zaupanja vredni partnerji, ki s svojimi izdelki in storitvami uspešno povezujejo obrambno in civilno uporabo.

Slovenija je zanesljiv partner – s tem katalogom to potrjujemo.

The Slovenian defence industry is a dynamic and innovative sector that brings together cutting-edge expertise and state-of-the-art technology, serving as the vital link between research, innovation, and the practical needs of the armed forces. In doing so, our companies contribute to national security and resilience, as well as enhance Slovenia's competitiveness in the global market.

Presenting the Slovenian defence industry in catalogues such as this one paves the way for new opportunities: from strengthening exports and attracting international partners, to engaging in joint development projects. Networking and cooperation hold the key to success, as they enable the exchange of knowledge, and provide access to new markets, technologies, and the best user experiences.

Our companies amply demonstrate that they are equal and trustworthy partners, successfully bridging defence and civilian applications through their products and services.

Slovenija is a reliable partner – and this catalogue reflects our commitment to that.

## **Mag. Borut Sajovic**

minister za obrambo Republike Slovenije

Minister of Defence of the Republic of Slovenia

REPUBLIC OF SLOVENIA  
**MINISTRY OF DEFENCE**

V času naraščajočih globalnih negotovosti je sposobnost države, da ohrani in razvija lastne obrambno-proizvodne zmogljivosti, strateška nujnost. Gospodarsko interesno združenje za obrambno industrijo Slovenije (GOIS) združuje več kot 155 podjetij, ki s svojo prisotnostjo in znanjem prispevajo k suverenosti, odpornosti in tehnološki konkurenčnosti države. Naši člani predstavljajo vrhunski spekter dejavnosti. Skupaj ne moderniziramo le Slovenske vojske, temveč prispevamo tudi k močnejši, bolj povezani evropski obrambno-varnostni arhitekturi. GOIS deluje kot most med industrijo, znanostjo in državo – gradimo partnerstva, spodbujamo naložbe ter zastopamo interese slovenskega obrambnega gospodarstva doma in v tujini. SIDEC je priložnost, da skupaj utrdimo vlogo Slovenije kot kredibilne partnerice v evropski obrambni ekosferi in prostor za strateško povezovanje ter skupne ambicije za varnejšo prihodnost.

In times of growing global uncertainty, a country's ability to maintain and develop its own defence production capabilities is a matter of strategic necessity. The Slovenian Defence Industry Cluster (GOIS) brings together over 155 companies that contribute to national sovereignty, resilience, and technological competitiveness through their expertise and presence.

Our members represent a high-performing cross-section of activities. Together, we are not only supporting the modernization of the Slovenian Armed Forces, but we are also actively contributing to a stronger and more integrated European security and defence architecture. GOIS serves as a bridge between industry, science, and the state – building partnerships, encouraging investment, and representing the interests of Slovenia's defence sector both nationally and internationally.

SIDEC is an opportunity to reinforce Slovenia's position as a credible partner in the European defence ecosystem – and a platform for strategic collaboration and joint ambition toward a safer future.

## Matej Miklavčič

predsednik Grozda obrambne industrije Slovenije  
President to the Slovenian Defence Industry Cluster

---

**Soorganizator dogodka**  
Event Co-Organizer

Slovenska vojska danes samozavestno stopa med narode, ki razumejo, da prihodnost varnosti ne temelji več le na konvencionalni moči, temveč na znanju, tehnologiji in sodelovanju. Naše poslanstvo – obramba države in prispevek h kolektivni varnosti – terja tesno sodelovanje z industrijo in znanostjo.

SIDEC je zato več kot le oborožitveni sejem – je praznik inovacij, most med industrijo, znanostjo in vojsko ter dokaz, da Slovenija zna in zmore prispevati k skupni varnosti.

Naj bo ta dogodek simbol našega ponosa, odločnosti in zaveze k prihodnosti, ki jo gradimo skupaj.

Today, the Slovenian Armed Forces take a confident step among nations that recognize the future of security no longer relies solely on conventional power, but on knowledge, technology, and cooperation.

Our mission – the defence of the nation and contribution to collective security – requires close collaboration with industry and science.

SIDEC is therefore more than just a defence exhibition – it is a celebration of innovation, a bridge between industry, scientific community, and the military, and a testament to Slovenia's ability and resolve to contribute to our shared security.

Let this event serve as a symbol of our pride, determination, and commitment to a future we are building together.

# URNIK PROGRAMA

## PROGRAMME TIMETABLE

### TOREK, 21. OKTOBER 2025 TUESDAY, 21 OCTOBER 2025

\*Program odprtja in okrogle mize poteka v slovenskem jeziku, poskrbljeno bo tudi za simultano tolmačenje v angleški jezik.  
\*The programme of the Official opening and Strategy presentation round table will be held in Slovene, with simultaneous interpretation into English language.

08:30	Registracija obiskovalcev	Visitors' registration
09:00	Odprtje sejma in varnostni pregled	Event opening and security check
10:00 - 10:45	Uradno odprtje konference in mednarodnega sejma SIDEC*	Official Opening of the Conference and the International SIDEC Fair*
14:00 - 15:30	Strategija razvoja obrambne industrije in tehnološke baze v Republiki Sloveniji (okrogla miza)*	Strategy for the Development of the Defense Industry and Technological Base in the Republic of Slovenia (round table)*
17:00	Zaključek prvega dne	End of day one

### SREDA, 22. OKTOBER 2025 WEDNESDAY, 22 OCTOBER 2025

Celoten program konference poteka v angleškem jeziku brez tolmačenja.  
The entire conference programme will be conducted in English without interpretation

08:30	Registracija obiskovalcev	Visitors' registration
09:00	Odprtje sejma in varnostni pregled	Event opening and security check
10:00 - 12:00	PANEL: Tehnologije prihodnosti R&R	PANEL: Future Technologies in R&D
12:00 - 14:00	Kosilo, mreženje, samostojen ogled sejma	Lunch, networking break and individual fair visit
14:00 - 15:45	PANEL: Umetna inteligenca	PANEL: Artificial Intelligence
15:45	Zaključek konference in samostojen ogled sejma	End of conference and individual fair visit
17:00	Zaključek drugega dne	End of day two

### ČETRTEK, 23. OKTOBER 2025 THURSDAY, 23 OCTOBER 2025

Celoten program konference poteka v angleškem jeziku brez tolmačenja.  
The entire conference programme will be conducted in English without interpretation

08:30	Registracija obiskovalcev	Visitors' registration
09:00	Odprtje sejma in varnostni pregled	Event opening and security check
10:00 - 12:00	PANEL: Energetska učinkovitost in odpornost	PANEL: Energy Efficiency and Resilience
12:00 - 14:00	Kosilo, mreženje, samostojen ogled sejma	Lunch, networking break and individual fair visit
14:00 - 16:20	PANEL: Kibernetska varnost	PANEL: Cybersecurity
16:20	Zaključek konference in samostojen ogled sejma	End of conference and individual fair visit
17:00	Zaključek tretjega dne	End of day three

### PETEK, 24. OKTOBER 2025 FRIDAY, 24 OCTOBER 2025

10:00	Slovesen zaključek uradnega dela SIDEC 2025	Solemn closing of the official part of SIDEC 2025
17:00	Uradno zaprtje dogodka SIDEC 2025	Official closing of the SIDEC 2025

# ODPRTI FORUM SIDEC

## OPEN FORUM SIDEC

NE ZAMUDITE KRATKIH, 15-MINUTNIH PREDSTAVITEV RAZSTAVLJAVCEV  
NA ODPRTEM FORUMU V DVORANI C1 V SREDO IN ČETRTEK.

# URADNO ODPRTJE KONFERENCE IN MEDNARODNEGA SEJMA SIDEC OFFICIAL OPENING OF THE CONFERENCE AND THE INTERNATIONAL SIDEC FAIR

TOREK, 21. OKTOBER 2025 | TUESDAY, OCTOBER 21, 2025

10:00 - 10:45

Goste odprtja bodo nagovorili:  
The guests will be addressed by:

**Boštjan Skalar**

direktor GOIS - Grozda obrambne industrije Slovenije / Director of GOIS - Slovenian Defence Industry Cluster

**Generalpodpolkovnik / Lieutenant General Robert Glavaš**

načelnik Generalštaba Slovenske vojske / Chief of the General Staff of the Slovenian Armed Forces -

**mag. Borut Sajovic**

Minister za obrambo Republike Slovenije / Minister of Defence of the Republic of Slovenia

# PREDSTAVITEV STRATEGIJE RAZVOJA OBRAMBNE INDUSTRIJE IN TEHNOLOŠKE BAZE V REPUBLIKI SLOVENIJI

## PRESENTATION OF THE STRATEGY FOR THE DEVELOPMENT OF THE DEFENSE INDUSTRY AND TECHNOLOGY BASE IN THE REPUBLIC OF SLOVENIA

TOREK, 21. OKTOBER 2025 | TUESDAY, OCTOBER 21, 2025

14:00 - 15:30

Strategija razvoja obrambne industrije in tehnološke baze v Republiki Sloveniji predstavlja prvo tovrstno strategijo v Republiki Sloveniji in izhaja iz Resolucije o splošnem dolgoročnem programu razvoja in opremljanja Slovenske vojske do leta 2040.

Namen Strategije razvoja obrambne industrije in tehnološke baze v Republiki Sloveniji je spodbujanje in krepitev slovenske obrambne industrije in njeno vključevanje v okolje EU in širše. Močna slovenska obrambna industrija bo trgu ponudila večjo razpoložljivost obrambnih proizvodov in storitev ter v skladu s svojimi zmogljivostmi pripomogla k zanesljivosti domače in tujih dobavnih verig ter oskrbe.

Da bomo lahko spodbudili vključevanje in povezovanje malih in srednjih podjetij doma in v mednarodnem prostoru in ustvarili enake konkurenčne pogoje, je potrebno povečati strateška vlaganja v ključna domača podjetja v obrambni panogi ter povečati vlogo države oziroma državnega vpliva na njihovo upravljanje. Za podporo učinkovitega razvoja nacionalne obrambne industrije je potrebno zagotoviti ustrezne oblike financiranja podjetij.

The Strategy for the Development of the Defence Industry and Technological Base in the Republic of Slovenia represents the first strategy of its kind in the Republic of Slovenia and is based on the Resolution on the overall long-term programme for the development and equipping of the Slovenian Armed Forces until 2040.

The purpose of the Strategy for the Development of the Defence Industry and Technology Base in the Republic of Slovenia is to promote and strengthen the Slovenian defence industry and its integration into the EU environment and beyond. A strong Slovenian defence industry will offer the market greater availability of defence products and services and, in accordance with its capabilities, contribute to the reliability of domestic and foreign supply chains and supplies.

In order to encourage the inclusion and integration of small and medium-sized enterprises at home and internationally and to create equal competitive conditions, it is necessary to increase strategic investments in key domestic companies in the defence industry and to increase the role of the state or state influence on their management. To support the effective development of the

Zato je bila 12. 9. 2025 ustanovljena in v sodni register vpisana gospodarska družba *DOVOS, družba za obrambo, varnost in odpornost, d.o.o. (company for defence, security and resilience)*, ki je v 100% lasti Republike Slovenije in katere poglavitna dejavnost bodo vlaganja v projekte in podjetja z namenom podpore raziskavam in razvoju obrambne industrije, krepitve varnosti in povečanja odpornosti. Družba bo sodelovala pri usklajevanju razvoja, konsolidaciji in usklajevanju obrambnih industrijskih zmogljivosti RS s področja obrambe, varnosti in odpornosti.

S ciljem spremljanja, analiziranja in usmerjanja sprememb na področju obrambno tehnološke in industrijske baze RS ter odpornosti, vključno s spremljanjem uresničevanja strategije, bo ustanovljen Strateški svet RS za obrambno tehnološko in industrijsko bazo ter odpornost.

national defense industry, it is necessary to ensure appropriate forms of financing for companies.

Therefore, on 12. 9. 2025, the company *DOVOS, družba za obrambo, varnost in odpornost, d.o.o. (company for defence, security and resilience)*, was established and entered into the court register. It is 100% owned by the Republic of Slovenia and its main activity will be investments in projects and companies with the aim of supporting research and development of the defense industry, strengthening security and increasing resilience. The company will participate in coordinating the development, consolidation and coordination of the defense industrial capabilities of the Republic of Slovenia in the field of defense, security and resilience.

With the aim of monitoring, analyzing and directing changes in the field of the defense technological and industrial base of the Republic of Slovenia and resilience, including monitoring the implementation of the strategy, the Strategic Council of the Republic of Slovenia for Defense Technology, Industrial Base and Resilience will be established.

## Panelisti Panelists

Moderator

**dr. Damir Črnčec**

PANEL

# TEHNOLOGIJE PRIHODNOSTI (R&R) FUTURE TECHNOLOGIES (R&D)

SREDA, 22. OKTOBER 2025 | WEDNESDAY, OCTOBER 22, 2025

10:00 - 12:00

Pridružite se nam na osrednjem dogodku, kjer bomo predstavili ključne trende tehnologij prihodnosti na področju obrambe in varnosti. Panel bo ponudil poglobljen pregled strateških smernic, ki jih oblikujejo ključne evropske organizacije, vključno z Evropsko komisijo, Evropsko obrambno agencijo (EDA), NATO in Ministrstvom za obrambo Republike Slovenije. Osredotočili se bomo na strateške usmeritve za prihodnost obrambne industrije, pri čemer bomo izpostavili nujnost sodelovanja med raziskovalnimi, industrijskimi in političnimi akterji na vseh ravneh – od raziskav in razvoja do implementacije naprednih obrambnih tehnologij in njihove industrializacije. Ob tem bomo osvetlili politične smernice, ki oblikujejo obrambo v EU, NATO in Sloveniji, ter njihovo ključno vlogo pri krepitvi obrambne odpornosti, inovacij in tehnoloških napredkov.

S strani Fakultete za strojništvo Univerze v Ljubljani bo dodan prispevek, ki bo predstavil ključne raziskovalne platforme, vključno z novo platformo obrambe in varnosti, ki omogoča izvajanje najsodobnejših raziskav in razvoja na področju obrambnih in vesoljskih tehnologij.

Join us at the central event, where we will present key future technology trends in the field of defense and security. The panel will provide an in-depth overview of strategic guidelines shaped by leading European organizations, including the European Commission, the European Defence Agency (EDA), NATO, and the Ministry of Defence of the Republic of Slovenia. We will focus on strategic directions for the future of the defense industry, highlighting the need for collaboration between research, industrial, and political stakeholders at all levels – from research and development to the implementation of advanced defense technologies and their industrialization. At the same time, we will focus on political frameworks that shape defense in the EU, NATO, and Slovenia, and their crucial role in strengthening defense resilience, innovation, and technological progress.

The Faculty of Mechanical Engineering of the University of Ljubljana will contribute with a presentation of key research platforms, including the newly established Defense and Security Platform, which enables cutting-edge research and development in the fields of defense and space technologies.

🕒 10:00

Uvodni pozdrav s poudarkom na ključnih ciljnih dogodka ter povezave med raziskovalnimi in industrijskimi iniciativami v obrambnih tehnologijah  
Opening Remarks with a focus on the key objectives of the event and the connection between research and industrial initiatives in defense technologies

**dr. Franci Pušavec**

Fakulteta za strojništvo, Univerza v Ljubljani / Faculty of Mechanical Engineering, University of Ljubljana

🕒 10:05

Predstavitev Evropske pobude in strategije za razvoj obrambnih tehnologij in inovacij, zlasti v okviru obrambne industrije EU  
European initiatives and strategies for the development of defense technologies and innovations, particularly within the EU defense industry

**Kristine Rudzite**

DG-DEFIS (Directorate-General for Defence Industry and Space), Evropska komisija / European Commission

🕒 10:25

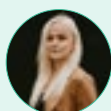

Povezovanje raziskav, tehnologij in industrije z namenom krepitev evropske obrambne sposobnosti ter ključne strategije in projekti EDA  
The integration of research, technology, and industry to strengthen European defense capabilities and key strategies / projects of the EDA

**Nathalie Guichard**

EDA (European Defence Agency)

🕒 10:45

Pobuda NATO Diana, ki se osredotoča na razvoj in pospeševanje obrambnih inovacij skozi partnerstva med industrijo in raziskovalnimi organizacijami ter pomembnost sodelovanja z zagonskimi podjetji pri razvoju novih obrambnih sposobnosti  
NATO Diana initiative, focused on developing and accelerating defense innovations through partnerships between industry and research organizations & collaboration with startups in the development of new defense capabilities

**Kadri Tammai**

NATO Diana

🕒 11:05

Sodobni vojaški izzivi in strategije za krepitev evropske obrambne odpornosti; izzivi in priložnosti, s katerimi se sooča Slovenija v obrambnem sektorju  
Modern military challenges and strategies to enhance European defense resilience and challenges and opportunities faced by Slovenia in the defense sector

**dr. Liliana Brožič**

Ministrstvo za obrambo Republike Slovenije / Ministry of Defence of the Republic of Slovenia

🕒 11:20

Predstavitev raziskovalnih platform Fakultete za strojništvo, kot ključnih enot za pospeševanje obrambnih inovacij in sinergije med akademskimi raziskavami ter industrijskimi potrebami  
The research platforms of the Faculty of Mechanical Engineering as key accelerators of defense innovations and synergies between academic research and industrial needs

**dr. Franci Pušavec**

Fakulteta za strojništvo, Univerza v Ljubljani / Faculty of Mechanical Engineering, University of Ljubljana

🕒 11:30

Pogovor (okrogla miza) o vprašanih, izzivih in prihodnosti slovenske obrambne industrije.  
Round table discussion on challenges and future of the slovenian defense industry

**Kristine Rudzite, Nathalie Guichard, Kadri Tammai, dr. Liliana Brožič**

PANEL

# UMETNA INTELIGENCA ARTIFICIAL INTELLIGENCE

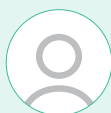

SREDA, 22. OKTOBER 2025 | WEDNESDAY, OCTOBER 22, 2025

14:00 - 15:45

Pridružite se nam na osrednjem dogodku o vlogi umetne inteligence (UI) na obrambnem področju. Obravnavali bomo vlogo pri treningu in simulacijah, kjer AI omogoča ustvarjanje realističnih in prilagodljivih učnih okolij in operativnih scenarijev, kar bistveno izboljša pripravljenost sil na raznolike in kompleksne situacije. Podrobnejša predstavitev uporabe AI avatarjev za trening neposredne komunikacije v sovražnih situacijah je tema naslovne predstavitve. Izzive avtonomnih sistemov in njihovega zavedanja okolice in prostorske orientacije rešuje AI s povezavo na množico senzorjev in obdelavo zlitih podatkov v realnem času. S tem se bistveno izboljša situacijsko zavedanje, z večdomensko integracijo podatkov in uporabo naprednih metod za zaznavanje, prepoznavanje in sledenje objektov in sprejemanje odločitev glede na kritične situacije. Povezali se boste s strokovnjaki iz industrije, raziskovalnega in obrambnega sektorja in dobili vpogled v prihodnost UI v obrambi.

Join us for an event about the role of artificial intelligence (AI) in defense. We will discuss the role of AI in training and simulations, where it enables the creation of realistic and adaptive learning environments and operational scenarios, which significantly improves the readiness of forces for diverse and complex situations. A more detailed presentation about the use of AI avatars for training direct communication in hostile situations is the keynote topic. The challenges of autonomous systems and awareness of their surroundings and spatial orientation are solved with AI by connecting to multitude of sensors and sensor data fusion in real time. This significantly improves situational awareness, with multi-domain data integration and use of advanced methods for detecting, recognizing and tracking objects while properly deciding in critical situations. You will connect with experts from industry, research and defense sectors and gain insight into future of AI in defense.

PANEL

# ENERGETSKA UČINKOVITOST IN ODPORNOST ENERGY EFFICIENCY & RESILIENCE

ČETRTEK, 23. OKTOBER 2025 | THURSDAY, OCTOBER 23, 2025

10:00 - 12:00

Pridružite se nam na osrednjem dogodku o naprednih energetskih rešitvah, ki krepijo operativno pripravljenost in odpornost na področju obrambe. Izpostavljene bodo najsodobnejše raziskave na področju vodika, baterijskih tehnologij, alternativnih goriv in integriranih večenergijskih sistemov. Cilj teh inovacij je zmanjšati logistične obremenitve, emisije in zagotoviti zanesljivo oskrbo z energijo v zahtevnih razmerah. Izvedeli boste, kako lahko novi pristopi zmanjšajo hrup in toplotne znake, izboljšajo zmogljivosti brez omrežja in na koncu okrepijo učinkovitost misije. Povezali se boste s strokovnjaki iz obrambnega, raziskovalnega in industrijskega sektorja ter pomagali oblikovati čistejšo in varnejšo prihodnost.

Join us for a focused event on advanced energy solutions that bolster operational readiness and resilience in defense. We will highlight cutting-edge research in hydrogen, battery technologies, alternative fuels, and integrated multi-energy systems. These innovations aim to reduce logistical burdens, lower emissions, and ensure a reliable energy supply under demanding conditions. Hear how new approaches can minimize noise and thermal signatures, enhance off-grid capabilities, and ultimately strengthen mission effectiveness. Connect with experts from the defense, research, and industry sectors to help shape a cleaner, more secure future.

🕒 10:00

Otvoritveni nagovor / **Opening address**

🕒 10:05

Aktivnosti Ministrstva za obrambo Republike Slovenije na področju trajnostnega razvoja zmogljivosti, odpornosti in energetske učinkovitosti

**MOD Slovenia activities in the field of sustainable capability development, resilience and energy efficiency**

**polkovnik / Colonel Robert Šipeč**

Ministrstvo za obrambo Republike Slovenije / Ministry of Defence of the Republic of Slovenia

🕒 10:30

Vloga novih nizkoogljičnih tehnologij in sistemov za sodobno obrambo

**The role of new low-carbon technologies and systems for modern defence**

**prof. dr. Mihael Sekavčnik**

Fakulteta za strojništvo Univerze v Ljubljani / Faculty of Mechanical Engineering, University of Ljubljana

🕒 10:50

Povečanje energetske odpornosti na področju obrambe: Kako je slovenska industrija ob podpori Ministrstva za obrambo zgradila model nacionalnega in mednarodnega sodelovanja

**Enhancing Energy Resilience in Defence: How Slovenian Industry supported by the Ministry of Defence Built a Model of National and International Cooperation**

**Matej Gajzer**

TECES

🕒 11:10

Vloga EDA pri podpori evropskim obrambnim ministrstvom pri spodbujanju modelov odporne in učinkovite energije

**The role of EDA in supporting the European ministries of defence in advancing resilient and efficient energy models**

**Maja Kuzel**

European Defence Agency (EDA)

🕒 11:30

Pogovor s panelisti, vprašanja in odgovori / **Open discussion, Q&A**

**SLOVENIAN DEFENCE INDUSTRY CLUSTER**

# Global partnerships for a safer future – showcasing Slovenia's industrial excellence in defence, security, and resilience.

The Slovenian Defence Industry Cluster (GIZ-GOIS) serves as the central platform of the Slovenian defence industry and a key stakeholder in the fields of defence, security, and resilience. As an independent, non-governmental, and non-profit industry association, it unites companies that develop advanced high-tech products and services with high added value. The cluster fosters effective collaboration between industry, government institutions, research organizations, and international partners.

**17+** years**150+** members**30+** events per year**GIZ-GOIS**

## The key hub of Slovenia's defence industry – delivering solutions for security at home and abroad.

Key benefits of engaging in cooperation with us:

Identifying and connecting with strategic partners for joint participation in projects, consortia, and R&D initiatives

Direct engagement with key stakeholders in the Slovenian defence industry

Insight into the strategic vision and objectives of Slovenia's defence policy

Facilitating collaboration between industry, academia, and government to unlock new business opportunities

**JOIN IN!****WE COOPERATE. WE DEVELOP. WE ENSURE SECURITY.**[www.giz-gois.eu](http://www.giz-gois.eu) / [info@giz-gois.si](mailto:info@giz-gois.si)

PANEL

# KIBERNETSKA VARNOST CYBER SECURITY

ČETRTEK, 23. OKTOBER 2025 | THURSDAY, OCTOBER 23, 2025

14:00 - 16:20

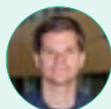

Na panelu bo obravnavana vloga kibernetске varnosti v sodobnih obrambnih strategijah z vpogledom predstavnika EU. Izpostavljen bo koncept dvojne rabe – uporabo dosežkov komercialnega sektorja v obrambi, kar bo izpostavljeno v projektu BRICO. Pregledana bo trenutna krajina kibernetских groženj, z obravnavo državno sponzoriranih napadov.

Predstavljen bo razvojni projekt programa Captech Cyber – REMUDO, platforma, zasnovana za situacijsko ozaveščenost. Razpravljalo se bo o sodelovalnih pobudah za kibernetско obrambo, kot je projekt Pesco CRRT, s poudarkom na razvoju skupne kibernetске zmogljivosti za odzivanje na incidente in krize. Poleg tega bodo obravnavani izzivi kibernetске varnosti v kritični infrastrukturi v dobi kvantnega računalništva.

The panel on cybersecurity will cover a range of critical topics. Key discussions will include the role of cybersecurity in modern defence strategies, with insights from a EU official, and the opportunities for dual use in cybersecurity, focusing on how commercial sector achievements can be applied to defence, highlighted by the BRICO project. The current cyber threat landscape will be examined, addressing state-sponsored attacks and cyber espionage.

The Captech Cyber session will introduce the REMUDO project, a platform designed for situation awareness. Collaborative cyber defence initiatives, such as the Pesco CRRT project, will be discussed, emphasizing the development of a common cyber capability for responding to incidents and crises. Additionally, the challenges of cybersecurity in critical infrastructure during the quantum computing era will be addressed.

🕒 14:00

**Uvodni nagovor**  
**Opening Address**

**Dr. Marko Hölbl**

Fakulteta za elektrotehniko, računalništvo in informatiko Univerza v Mariboru / Faculty of Electrical Engineering and Computer Science, University of Maribor

🕒 14:05

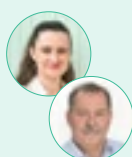

**Vloga kibernetne varnosti v sodobnih obrambnih strategijah**  
**The Role of Cybersecurity in Modern Defense Strategies**

**Andrea Pompili**

CY4GATE

🕒 14:30

**Razvojno raziskovalne aktivnosti slovenske industrije v okviru evropskih tehnoloških razvojnih pobud**  
**Research and development activities of Slovenian industry within the framework of European technological development initiatives**

**Ajda Vodlan**

DLO MO / Logistics Directorate of the Ministry of Defence

**Mihael Nagelj**

Sekcija za kibernetno varnosti ZIT GZS / Cybersecurity Section of the ZIT GZS

🕒 14:50

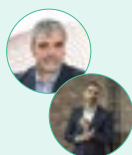

**Trenutna krajina kibernetnih groženj**  
**The Current Cyber Threat Landscape**

**Milan Gabor**

Viris d.o.o.

🕒 15:10

**Enotna kibernetno-elektromagnetna obramba: Platforma REMUDO za večdomensko varnost**  
**Unified Cyber-Electromagnetic Defense: The REMUDO Platform for Multidomain Security**

**Andrea Pompili**

Cy4GATE

**Matjaž Breznik**

Creaplus

🕒 15:30

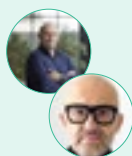

**Priložnosti za rešitve dvojne rabe v kibernetni varnosti**  
**Opportunities for Dual Use solutions in Cybersecurity**

**Matej Rabzelj**

Fakulteta za elektrotehniko Univerza v Ljubljani / Faculty of Electrical Engineering, University of Ljubljana

🕒 15:50

**Kibernetna varnost v dobi kvantnega računalništva**  
**Cybersecurity in the Age of Quantum Computing**

**Peter Ceferin**

Smart Com

**Mag. Egon Milanič**

Urad Vlade RS za varovanje tajnih podatkov / Government Office for the Protection of Classified Information

🕒 16:10

**Zaključni nagovor s ključnimi poudarki**  
**Closing Remarks with Key Takeaways**

**Dr. Marko Hölbl**

SHAPING THE FUTURE OF DEFENCE INNOVATION

# LEPATARA

- Research & Development
- Precision manufacturing and assembly
- Smart integration and system solutions
- Defence trading and supply support
- Corporate lobbying of Slovenian Defence worldwide.

Lepatara is a Slovenian defence technology company focused on R&D, precision manufacturing, system integration, and international trade. Through corporate lobbying and strategic partnerships, Lepatara promotes Slovenian defence capabilities worldwide - driving innovation, security, and global cooperation in the defence sector.

Connecting defence possibilities with international demand across Europe, Africa, and beyond.

We are a trusted Slovenian Partner in Defence Innovation and Global Cooperation.

The Advantage Austria exhibition stand presents Austrian companies that offer **advanced technological solutions for the defense industry.**

#### EMPL FAHRZEUGWERK GMBH

Custom truck bodies for firefighting, commercial, and defense sectors.

#### EW DRONE PASSION GMBH

UAV solutions, detection systems, and training for military and law enforcement.

#### HARATECH GMBH

Prototyping and industrial product development.

#### IKARUS SECURITY SOFTWARE GMBH

European-made cybersecurity for critical infrastructure.

#### NEUMAN ALUMINIUM FLIESSPRESSWERK GMBH

Cold-forming aluminum for innovative industrial applications.

#### OZZYLOGIK GMBH

Tactical network and cellular intelligence tools for security agencies.

#### PROFESSIONAL AIRCRAFT ENGINES GMBH

Small aircraft engines for UAVs and safety-focused engineering.

#### RÜBIG GESELLSCHAFT M.B.H. & CO. KG.

Heat treatment for steel and aluminum, specialized in defense components.

#### SEIBERSDORF LABOR GMBH

Lab services in radiation, chemical analysis, and laser safety.

#### SILICON AUSTRIA LABS GMBH

Research in electronic and software-based systems for sustainable tech.

#### ZERO COMPROMISE OPTIC GMBH

High-end riflescopes made in Austria.

## GROZD OBRAMBNE INDUSTRIJE SLOVENIJE

# Globalna partnerstva za varnejšo prihodnost – predstavitev slovenske industrijske odličnosti na področju obrambe, varnosti in odpornosti.

**Grozd obrambne industrije Slovenije (GIZ-GOIS)** je osrednja platforma slovenske obrambne industrije ter ključni akter na področju obrambe, varnosti in odpornosti. Kot samostojno in neodvisno gospodarsko interesno združenje povezuje podjetja, ki razvijajo napredne visokotehnološke rešitve in storitve z visoko dodano vrednostjo.

**17+** let

**150+** članov

**30+** dogodkov letno

## GIZ-GOIS

# Smo ključna povezovalna točka slovenske obrambne industrije – z rešitvami za varnost doma in v svetu.

### Prednosti članstva v organizaciji:

-  Povezovanje podjetij, znanstveno-raziskovalnih organizacij in države za ustvarjanje novih poslovnih priložnosti.
-  Aktivno vključevanje v projekte, konzorcije ter raziskovalno-razvojne programe doma in v tujini.
-  Podpora pri internacionalizaciji in vstopu na tuje trge.
-  Promocija članov na sejmi, strokovnih dogodkih in v okviru mednarodnih mrež.

**POSTANITE ČLAN!**

**SODELUJEMO. RAZVIJAMO. SKRBIMO ZA VARNOST.**

A.D. ACOVIA DESIGN d.o.o. je specializirano podjetje za razvoj in proizvodnjo vojaških šotorov ter rešitev iz tehničnega tekstila za obrambni sektor. Naše šotorske strukture so zasnovane za hitro postavitve, vzdržljivost v ekstremnih razmerah in dolgo življenjsko dobo. Sodelujemo z zanesljivimi dobavitelji in proizvodnjo prilagajamo specifičnim potrebam uporabnikov. Na sejmu SIDEC predstavljamo napredne sisteme za terensko namestitev in logistično podporo.

A.D. ACOVIA DESIGN d.o.o. is a company specialized in the development and production of military tents and technical textile solutions for the defense sector. Our tent structures are designed for quick set-up, durability in extreme conditions and long service life. We cooperate with reliable suppliers and adapt production to the specific needs of users. At the SIDEC fair, we present advanced systems for field installation and logistical support.

DefAgora: Mreža. Inteligenca. Prednost. Smo prva platforma, ki združuje avtomatsko usklajevanje razpisov, strateške tržne informacije in močno mrežo partnerjev, namenjeno posebej evropskemu obrambnemu in varnostnemu sektorju, kar omogoča nemoteno sodelovanje in rast.

DefAgora: The Network. The Intelligence. The Advantage. We are the first platform to combine automated tender matching, strategic market insights, and a powerful partner network specifically for the European defense and security sector, making collaboration and growth seamless.

## EMPL FAHRZEUGWERK GMBH

Dvorana C / Hall C 6

[www.empl.at](http://www.empl.at)

[Avstrija / Austria](#)

EMPL je vodilni evropski proizvajalec prilagojenih specialnih nadgradenj za šasije tovornjakov. Njegovi izdelki, prilagojeni specifičnim zahtevam strank, so priznani po vsem svetu in so se izkazali za zelo uspešne.

EMPL is the leading European manufacturer of customized special bodies for truck chassis. Its products, tailored to customers' specific application requirements, are renowned worldwide and have proven themselves to be highly successful.

## EW DRONE PASSION GMBH

[www.drone-passion.at](http://www.drone-passion.at)

Dvorana C 4 / Hall C 4

Avstrija / Austria

Podjetje Drone Passion GmbH ponuja različne rešitve z brezpilotnimi letalniki (UAV), njihovo odkrivanje in ublažitev posledic le-teh. Poleg naših izdelkov ponujamo tudi široko paleto izobraževanj in delavnic na to temo. Naše glavne stranke so iz področij organov pregona, vojske in varnostnih storitev. Ponosni smo, da smo partner Natovega Centra odličnosti za gorsko bojevanje v Sloveniji.

The company Drone Passion GmbH offers different UAV solutions, UAV detection and mitigation. Additional to our products we offer a wide range of training and workshop courses on this topics. Our main clients are Law Enforcement, Military and security clients. We are proud to be a partner of the NATO Mountain Warfare Centre of Excellence in Slovenia.

## HARATECH GMBH

[www.haratech.at](http://www.haratech.at)

Dvorana C 4 / Hall C 4

Avstrija / Austria

HARATECH Plastics Engineering & Solutions je ISO odobren sistemski dobavitelj na področju tehnologije plastike, specializiran za letalstvo in varnostne sisteme. HARATECH-ova paleta storitev zajema vse faze, od industrijskega oblikovanja, razvoja, simulacije, industrijskega 3D-tiskanja, vakuumskega litja, brizganja do avtomatizirane montaže in zagotavljanja kakovosti.

HARATECH Plastics Engineering & Solutions is an ISO-certified system supplier in the field of plastics technology, specializing in aviation and security systems. HARATECH's range of services covers all phases from industrial design, development, simulation, industrial 3D printing, vacuum casting, injection molding, to automated assembly and quality assurance.

dobavo strelnega orožja, sestavnih delov strelnega orožja, vadbenega streliva, balistične zaščitne opreme in ostalih komponent. Podjetje AREX že več kot 30 let razvija in proizvaja inovativne produkte na področju obrambne industrije in z inovativnimi pristopi ter produkti spada v sam vrh tega dela in segmenta industrije. Med glavne produkte podjetja AREX spadajo: Orožje - Pištole in puške, Vadbena streliva, Cevi, povezave za strelivo (linki) in ostale komponente, Balistična zaščita oprema. Dediščina podjetja izhaja iz orodjarskega sektorja, iz katerega izvirata tudi natančnost in kakovost. V dolgih letih delovanja se je fokus podjetja usmeril v obrambno industrijo in je tako podjetje z novimi idejami ter kreativnimi pristopi hitro postalo vodilno v tej industriji tudi na vseh svetovnih trgih. Kot eno od najmočnejših slovenskih podjetij na svojem področju, podjetje AREX dobavlja tudi Ministrstvu za obrambo Republike Slovenije, Ministrstvu za pravosodje Republike Slovenije ter Ministrstvu za notranje zadeve Republike Slovenije, hkrati pa deluje tudi kot Center odličnosti za usposabljanje na področju strojne obdelave in proizvodnje – s čimer oblikuje naslednjo generacijo usposobljenih strokovnjakov obrambne industrije.

### ARMAS D.O.O.

Dvorana K / Hall K 31

ARMAS je neodvisno podjetje, ki se ukvarja s proizvodnjo in prodajo jeklenih izdelkov za obrambne namene. Družba ima dovoljenje za proizvodnjo, izvoz in trgovanje z obrambnimi izdelki. ARMAS je del vertikalno integrirane dobavne verige z nadzorom nad raziskavami in razvojem, inženiringom in proizvodnjo obrambnih izdelkov. Ima bogato dediščino in obilo izkušenj pri zagotavljanju jeklenih aplikacij za posebne namene:

- artilerijske in minometne cevi in komponente - odkovki
- torzijske palice najvišje kakovosti
- balistična in druga ploščata jekla, ki se uporabljajo v obrambni industriji
- valjane in kovane jeklene palice, ki se uporabljajo v obrambni industriji
- inženiring in proizvodnja kompleksnih kopenskih sistemov

### FOTONIKS ELEKTRO OPTIK

Dvorana K / Hall K 31

FOTONIKS Military Electronics and Electro-Optical Systems Industry & Trade Inc. razvija izvirne in inovativne rešitve na kritičnih področjih, kot so elektrooptični, izvidniški, nadzorni in obveščevalni sistemi. Kot podjetje v obrambni industriji, specializirano za kritična področja, se osredotočamo na pretvarjanje vizualnih informacij v bojno moč na kopenskih, pomorskih in zračnih platformah, s poudarkom na edinstvenih izdelkih.

firearms, firearm components, training ammunition, ballistic protective equipment and other components. For more than 30 years, AREX has been developing and producing innovative products in the field of the defence industry and with innovative approaches and products they are at the very top of this part and segment of the industry. AREX's main products include: Weapons - Pistols and rifles, Training ammunition, Barrels, ammunition connections (links) and other components, Ballistic protective equipment. The company's heritage comes from the toolmaking sector, from which the right and quality also originate. Over the years of operation, the company's focus has shifted to the defence industry and the company has quickly become a leader in this industry on all global markets with new ideas and creative approaches. As one of the strongest Slovenian companies in its field, AREX also supplies the Ministry of Defense of the Republic of Slovenia, the Ministry of Justice of the Republic of Slovenia, and the Ministry of the Interior of the Republic of Slovenia, while also acting as a Center of Excellence for training in the field of machining and production - thereby shaping the next generation of qualified defense industry experts.

## ATG ZUPAN D.O.O.

Dvorana C 16 / Hall C 16

[www.atgzupan.com](http://www.atgzupan.com)  
Krmelj 2b, 8296 Krmelj  
Slovenija / Slovenia

Podjetje ATG Zupan ima 30 letno tradicijo prodaje izdelkov s področja avtomobilske industrije. Naša primarna storitvena dejavnost je prodaja barv in lakov na slovenskem in hrvaškem trgu. Poleg barv in lakov ponujamo celovite rešitve za potrebe vsake avto-ličarske delavnice - od celotne palete potrošnega materiala do osebne zaščitne opreme. V ponudbi imamo tudi kakovostne produkte industrijskega programa, med drugim barve za konstrukcije, objekte, stroje, barve s certifikati za vojaško industrijo ipd.

The company ATG Zupan has a 30-year tradition of selling products from the automotive industry. Our primary service activity is the sale of paints and varnishes on the Slovenian and Croatian markets. In addition to paints and varnishes, we offer comprehensive solutions for the needs of every car body shop - from an entire range of consumables to personal protective equipment. We also offer high-quality products from the industrial program, including paints for structures, buildings, machines, paints with certificates for the military industry, etc.

## ATMOLAB D.O.O.

Dvorana K 5 / Hall K 5

[www.atmolab.eu](http://www.atmolab.eu)  
Zadobrova 39c, 3211 Škofja vas  
Slovenija / Slovenia

ATMOLAB razvija in proizvaja napredne, stabilizirane elektro-optične sisteme kamer, zasnovane za uporabo na dronih, vozilih in ultralahkih letalih. Naši sistemi so ključni pri nadzoru območij, pregledu infrastrukture, iskanju in reševanju oseb ter usklajevanju intervencij pri gašenju divjih požarov in drugih kriznih situacijah.

Z lastnim razvojem strojne in programske opreme omogočamo popolno prilagoditev sistemov glede na zahteve konkretne uporabe in tehnične značilnosti nosilne platforme. Naše rešitve platformam zagotavljajo »oči« (kamere in senzorje) in »možgane« (programsko opremo z možnostjo vključitve naprednih AI-aplikacij).

ATMOLAB develops and manufactures advanced, stabilized electro-optical camera systems designed for use on drones, vehicles, and ultralight aircrafts. Our systems play a key role in area surveillance, infrastructure inspection, search and rescue operations, and coordination during wildfire response and other emergency situations.

With our own development of hardware and software, we enable complete customization of systems according to the requirements of a specific application and the technical characteristics of the carrier platform. Our solutions provide platforms with "eyes" (cameras and sensors) and "brains" (software with the possibility of integrating advanced AI applications).

## AUTOCOMMERCE, D.O.O. - GENERALNI UVOZNIK GOSPODARSKIH VOZIL MERCEDES-BENZ TRUCKS

Autocommerce: Zanesljiv partner za vojaško mobilnost  
Podjetje Autocommerce d.o.o., generalni uvoznik vozil Daimler Truck AG za Slovenijo, se na sejmu SIDEC predstavlja z vojaškim programom blagovne znamke Mercedes-Benz Defence Trucks.

Mercedes-Benz Defence Trucks so sinonim za zanesljivost, robustnost in prilagodljivost v vseh operativnih in podnebnih razmerah. Zasnovani so za učinkovito vožnjo po cestah in zahtevnem terenu, podprti pa so z globalno servisno mrežo in integrirano logistično podporo.

Autocommerce: A reliable partner for military mobility  
The company Autocommerce d.o.o., the general importer of Daimler Truck AG vehicles for Slovenia, is presenting the military program of the Mercedes-Benz Defence Trucks brand at the SIDEC fair.

Mercedes-Benz Defence Trucks are synonymous with reliability, robustness and adaptability in all operational and climatic conditions. They are designed for efficient driving on roads and in demanding terrain, and are supported by a global service network and integrated logistics support.

## Predstavitve razstavljalcev po abecednem vrstnem redu

### Presentation of Exhibitors in alphabetical order

#### Zvezda naredi razliko

Pomembne naloge zahtevajo vrhunske strokovnjake. Mercedes-Benz Defence Trucks ponuja rešitve po meri za vsak scenarij. To omogoča širok portfelj vozil – od legendarnega Unimoga z nosilnostjo najmanj 2 toni, do težkega vlačilca Arocs z največjo skupno vlečno maso 250 ton.

Na Mercedes-Benz Defence Trucks se lahko zanesete.

Autocommerce poleg prodaje gospodarskih in specializiranih vozil nudi tudi:

- Servisiranje težkih tovornih vozil, specialnih vozil in avtobusov
- Prodajo originalnih nadomestnih delov in dodatne opreme
- Upravljanje voznega parka in usposabljanje voznikov
- Izdajo homologacijskih potrdil, potrdil o izvoru blaga, CEMT in L potrdil

Zavezani smo k zagotavljanju celovitih rešitev, ki presega pričakovanja naših strank – tudi v najzahtevnejših vojaških okoljih. Pripravljeni, ko ste vi.

#### The star makes a difference

Important tasks require top experts. Mercedes-Benz Defence Trucks offers tailor-made solutions for every scenario. This is made possible by a wide portfolio of vehicles – from the legendary Unimog with a carrying capacity of at least 2 tons, to the heavy Arocs tractor with a maximum total towing weight of 250 tons.

You can rely on Mercedes-Benz Defence Trucks.

In addition to the sale of commercial and specialized vehicles, Autocommerce also offers:

- Servicing of large goods vehicles, special vehicles and buses
- Sale of OEM parts and accessories
- Fleet management and driver training
- Issuance of homologation certificates, certificates of origin, CEMT and L certificates

We are committed to providing comprehensive solutions that exceed our customers' expectations – even in the most demanding military environments. Ready when you are.

Bonus inženiring nudi inženirske storitve na področju razvoja izdelka, avtomatizacije in 3D skeniranja. S svojim širokim inženirskim znanjem podpiramo podjetja pri razvoju izdelkov z numeričnimi simulacijami in vzvratnim inženiringom. Podjetjem ponujamo tudi razvoj naprav za avtomatizirano sestavo, kontrolo in pakiranje komponent. Kot partner podjetja Zeiss in del platforme #HandsOnMetrology našim partnerjem nudimo naprave in storitve na področju 3D skeniranja.

Bonus Engineering offers engineering services in the field of product development, automation and 3D scanning. With our extensive engineering knowledge, we support companies in product development with numerical simulations and reverse engineering. We also offer companies the development of devices for automated assembly, inspection and packaging of components. As a partner of Zeiss and part of the #HandsOnMetrology platform, we offer our partners devices and services in the field of 3D scanning.

## BUSINESS SOLUTIONS

Dvorana C 28 / Hall C 28

www.b-s.si  
Velika pot 15, 5250 Solkan  
Slovenija / Slovenia

Business Solutions je vodilni ponudnik poslovnoinformacijskih rešitev z več kot 25-letnimi izkušnjami. Podjetjem v zasebnem in javnem sektorju pomaga digitalizirati poslovanje – od financ, projektov, proizvodnje in skladiščnega poslovanja do naprednih spletnih rešitev. V tem času je uspešno izvedel več kot 700 implementacij in ustvaril inovativne sisteme, ki povezujejo vse ravni poslovanja v digitalizirano celoto. Njegova moč niso le izkušnje in znanje, temveč tudi razumevanje potreb strank ter sposobnost, da jih pretvori v učinkovite rešitve. Kot zanesljiv partner za Microsoft Dynamics 365, Microsoft 365 in Microsoft Azure zagotavlja prilagojene sisteme, ki podjetjem omogočajo, da ostanejo korak pred konkurenco. Z več kot 230 sodelavci in več kot 400 certifikati stoji naročnikom ob strani na vsakem koraku digitalizacije – od svetovanja in razvoja do implementacije in podpore.

Business Solutions is a leading provider of business information solutions with more than 25 years of experience. It helps companies in the private and public sectors digitize their operations - from finance, projects, production and warehousing to advanced web solutions. During this time, it has successfully completed more than 700 implementations and created innovative systems that connect all levels of the business into a digitized whole. Its strength is not only experience and knowledge, but also understanding customer needs and the ability to transform them into effective solutions. As a reliable partner for Microsoft Dynamics 365, Microsoft 365 and Microsoft Azure, it provides customized systems that allow companies to stay one step ahead of the competition. With more than 230 employees and more than 400 certificates, it stands by its clients at every step of digitization - from consulting and development to implementation and support.

## CARINTHIA

Dvorana K 32 / Hall K 32

www.carinthia.eu  
Seebacherstraße 11-13, 9871 Seeboden  
Avstrija / Austria

V podjetju Carinthia že desetletja vsak dan sledimo skupnemu cilju: trajnemu, inovativnemu in na učinkovitost usmerjenemu nadaljnjemu razvoju izoliranih oblačil in opreme – od profesionalcev za profesionalce. Kot vodilni na svetovnem trgu so v središču naših dejavnosti usmerjenost v storitve, podjetniški duh in inovativna moč. Profesionalnost in prilagodljivost na področju razvoja izdelkov nam omogočata razvoj rešitev, ki zagotavljajo več udobja in varnosti. Naše izdelke testirajo strokovnjaki, skupaj z njimi jih naprej nadgrajujemo. Pomemben ključ do uspeha podjetja je edinstvena vrhunska izolacija iz sintetičnih vlaken G-LOFT®. Topla, lahka in zračna – tudi v izjemno mokrem in hladnem vremenu. Neprimerljivo USP je izjemno razmerje med toploto in težo tega visokotehnološkega vlakna. Edinstvenost G-LOFT® je osnova naše ponudbe izdelkov. CARINTHIA. Zgrajeno za delovanje.

At Carinthia, we have been pursuing a common goal every day for decades: the permanent, innovative and performance-oriented further development of insulated clothing and equipment - from professionals for professionals. As a global market leader, service orientation, entrepreneurial spirit and innovative strength are the focus of our activities. Professionalism and flexibility in the field of product development enable us to develop solutions that provide more comfort and safety. Our products are tested by professionals and further developed together. An important key to the company's success is the unique premium synthetic fiber insulation G-LOFT®. Warm, light and breathable - even in extremely wet and cold weather. Unrivaled USP is the extraordinary warmth-to-weight ratio of this high-tech fiber. The uniqueness of G-LOFT® acts as the basis of our product portfolio. CARINTHIA. Built to perform.

## C-ASTRAL AEROSPACE

Dvorana C 7 / Hall C 7

[www.c-astral.com](http://www.c-astral.com)  
Mirce 26, 5270 Ajdovščina  
Slovenija / Slovenia

C-ASTRAL AEROSPACE je proizvajalec in razvijalec brezpilotnih letalnih sistemov (BLS) s sedežem v Sloveniji z dolgo zgodovino proizvodnje in razvoja senzorjev BLS in BLS, ki se je začela leta 2007. Podjetje je poznano po svojih elegantnih in učinkovitih brezpilotnih letalnih sistemih s fiksnimi krili Bramor in SQA. Za zasnovo SQA je podjetje prejelo tudi nagrado Red Dot Best of the Best 2024. C-Astral BLS so robustni, trpežni in lahko delujejo v različnih vlogah, odvisno od uporabljenega senzorja. Brezpilotni zrakoplovi so tudi enostavni za uporabo in enostavni za vzdrževanje.

C-ASTRAL AEROSPACE is a Slovenia-based manufacturer and developer of unmanned aerial systems (UAS) with a long history of manufacturing and developing BLS and BLS sensors, starting in 2007. The company is known for its elegant and efficient Bramor and SQA fixed-wing UAS. The SQA design also won the Red Dot Best of the Best 2024 award. C-Astral BLS are robust, durable and can operate in a variety of roles, depending on the sensor used. The UAS are also easy to operate and easy to maintain.

D Partner d.o.o. represents world-renowned manufacturers of military weapons and equipment. We provide after-sales service to our users.

Na sejmu predstavljamo naše partnerje: Ballistix Academy, Bos Grubar, Falken, Fox Knives, Katadyn, Quickblock

At the fair we present our partners: Ballistix Academy, Bos Grubar, Falken, Fox Knives, Katadyn, Quickblock

## DAMATECH D.O.O.

Dvorana D 9 / Hall D 9

[www.damatech.com](http://www.damatech.com)  
Cesta Franceta Prešerna 63, 4270 Jesenice  
Slovenija / Slovenia

Podjetje Damatech, s sedežem na Jesenicah, je zanesljiv partner za dobavo in obdelavo balističnih in visoko odpornih jekel AROMOX® in Ramor®. Naša specializacija vključuje hitro dobavo iz zaloge, natančno mehansko obdelavo ter rešitve po meri za najzahtevnejše aplikacije v obrambni industriji, varnostnem inženiringu, gradbeni mehanizaciji ter transportu. Z dolgoletnimi izkušnjami, sodobnim strojnim parkom in strokovno tehnično podporo podjetje Damatech nudi celovite rešitve – od svetovanja pri izbiri materiala do končne obdelave – vse na enem mestu.

Damatech company, based in Jesenice, is a reliable partner for the supply and processing of ballistic and high-strength steels AROMOX® and Ramor®. Our specialization includes fast delivery from stock, precise mechanical processing and custom solutions for the most demanding applications in the defense industry, security engineering, construction machinery and transport. With many years of experience, modern machinery and professional technical support, Damatech company offers comprehensive solutions - from advice on material selection to final processing - all in one place.

## DAT - CON D.O.O.

Dvorana D 16 / Hall D 16

[www.dat-con.com](http://www.dat-con.com)  
Cvetlična ulica 52, 3313 Polzela  
Slovenija / Slovenia

DAT - CON d.o.o. je ponudnik sistemskih rešitev za nadzor kopenskih, zračnih in morskih meja. V več kot 30 letih izkušenj je podjetje pustilo pečat na vseh celinah sveta. Rešitve in izdelki DAT - CON pomagajo pri nadzoru več kot 3000 km evropskih meja in več kot 6000 km meja drugih držav od Azije do Afrike. Podjetje je razdeljeno na tri divizije: varnostne rešitve za nadzor meja, vojaške rešitve in posebna merilna oprema. Varnostne rešitve za nadzor meja zajemajo nadzor kopenskih, morskih in zračnih meja. Vojaške rešitve zajemajo modernizacijo in nadgradnjo vojaških vozil, posebno optiko za orožne sisteme na vozilih, sisteme za vodenje ognja topništva in minometov ter sisteme poveljevanja in nadzora. Z našim znanjem in izkušnjami zagotavljamo učinkovito zaščito kritične infrastrukture z naprednimi izdelki in specializiranimi rešitvami.

DAT - CON d.o.o. is a provider of system solutions for land, air and sea border control. In more than 30 years of experience, the company has left its mark on all continents of the world. DAT - CON's solutions and products help control more than 3000 km of European borders and more than 6000 km of borders of other countries from Asia to Africa. The company is divided into three divisions; security solutions for border control, military solutions and special measuring equipment. Border control security solutions cover land, sea and air border control. Military solutions cover the modernization and upgrading of military vehicles, special optics for weapon systems on vehicles, artillery and mortar fire guidance systems, and command and control systems. With our knowledge and experience, we provide effective protection of critical infrastructure through advanced products and specialized solutions.

## LEPATARA D.O.O.

Dvorana D 16 / Hall D 16

[www.lepatara.si](http://www.lepatara.si)  
Naselje Aleša Kaple 9a, 1430 Hrastnik  
Slovenija / Slovenia

Lepatara je slovensko podjetje za obrambno tehnologijo, osredotočeno na raziskave in razvoj, precizno proizvodnjo, integracijo sistemov ter mednarodno trgovino. S korporativnim lobiranjem in strateškimi partnerstvi Lepatara globalno promovira slovenske obrambne zmogljivosti ter spodbuja inovacije, varnost in mednarodno sodelovanje v obrambnem sektorju. Povezuje današnje in prihodnje obrambne možnosti z mednarodnim povpraševanjem po vsej Evropi, Afriki in širše.

Lepatara is a Slovenian defence technology company focused on R&D, precision manufacturing, system integration, and international trade. Through corporate lobbying and strategic partnerships, Lepatara promotes Slovenian defence capabilities worldwide, driving innovation, security, and global cooperation in the defence sector. Connecting today's and future defence possibilities with international demand across Europe, Africa, and beyond.

## DEFENDER D.O.O., INNOVATIVE NON LETHAL SOLUTIONS

Dvorana K 7 / Hall K 7

[www.defender-byrna.si](http://www.defender-byrna.si)  
Radvanjska cesta 108, 2000 Maribor  
Slovenija / [Slovenia](#)

Podjetje Defender d.o.o. je specializirano za ponudbo inovativnih ne-smrtonosnih rešitev za obvladovanje konfliktov, kot je sortiment svetovno priznanega podjetja Byrna Technologies Inc. in za napredne komunikacijske rešitve podjetja Alliance Defense, katere namen je vojaško/polijski, kot tudi za civilno zaščito. Za ves sortiment nudimo popolno podporo, kot tudi taktično usposabljanje.

The company Defender d.o.o. specializes in offering innovative non-lethal conflict management solutions, such as the range of the world-renowned company Byrna Technologies Inc. and advanced communication solutions from Alliance Defense, aimed at military/police, as well as civil protection. We offer full support for the entire range, as well as tactical training.

## DIEHL DEFENCE

Dvorana K 24 in Atrij 5 / Hall K 24 and Atrium 5

[www.diehl.com/defence](http://www.diehl.com/defence)  
Alte Nussdorfer Str. 13, 88662 Ueberlingen  
Nemčija / [Germany](#)

Diehl Defence s sedežem v Ueberlingenu se osredotoča na poslovne dejavnosti skupine Diehl na področja obrambe in varnosti ter je vodilni ponudnik sistemov za najsodobnejše sisteme zračne obrambe. Kot partner nemškega Bundeswehra in mednarodnih oboroženih sil Diehl Defence razvija in dobavlja visokotehnološko opremo na področju zemeljske zračne obrambe, vodenih raket, streliva ter usposabljanja in zaščite. Diehl Defence s približno 4000 zaposlenimi ustvari letno prodajo v višini več kot 1,5 milijarde evrov.

Diehl Defence, headquartered in Ueberlingen, concentrates the Diehl Group's business activities in the fields of defence and security and is a leading system house for state-of-the-art air defence systems. As partner of the German Bundeswehr and international armed forces, Diehl Defence develops and delivers high tech equipment in the fields of ground-based air defence, guided missiles, ammunition as well as training and protection. Diehl Defence generates annual sales of over 1,5 billion euros with about 4,000 employees.

Slovenija / [Slovenia](#)

ELEVONX (Slovenija) – Proizvajalec VTOL brezpilotnih letal za zahtevna okolja, ki združujejo velik tovorni prostor, dolg dolet in prilagoditev specifičnim potrebam obrambne in dvojne rabe.

ELEVONX (Slovenia) – Developer of VTOL UAV systems built for extreme environments combining large payload bays, long range & customization to specific defense dual-use requirements.

## ELVEZ

Dvorana D 15 / Hall D 15

[www.elvez.si](http://www.elvez.si)

Ulica Antona Tomšiča 35, 1294 Višnja Gora  
Slovenija / Slovenia

ELVEZ d.o.o. je visokotehnoško proizvodno podjetje z več kot tridesetletno tradicijo, ki deluje na področju predelave plastičnih mas, vakuumske metalizacije ter izdelave kabljskih in elektromehanskih sklopov. Sedež podjetja je v Višnji Gori, od koder ELVEZ oskrbuje zahtevne industrijske kupce po vsej Evropi. Ključna konkurenčna prednost podjetja je zmožnost zagotavljanja celovitih rešitev – od konstrukcijskega razvoja in prototipiranja do serijske proizvodnje, končne montaže ter logistične podpore. S sodobnim strojnim parkom, digitaliziranimi procesi in stalnimi vlaganji v razvoj, ELVEZ učinkovito podpira industrije z visoko stopnjo tehnične kompleksnosti, kot so avtomobilska industrija, bela tehnika, elektroindustrija in strojništvo.

ELVEZ d.o.o. is a high-tech manufacturing company with more than thirty years of tradition, operating in the field of plastic processing, vacuum metallization and the production of cable and electromechanical assemblies. The company's headquarters are in Višnja Gora, from where ELVEZ supplies demanding industrial customers throughout Europe. The company's key competitive advantage is its ability to provide comprehensive solutions - from design development and prototyping to series production, final assembly and logistical support. With a modern machine park, digitalized processes and constant investments in development, ELVEZ effectively supports industries with a high level of technical complexity, such as the automotive industry, white goods, electrical industry and mechanical engineering.

## REALTRONIK D.O.O.

Dvorana D 15 / Hall D 15

### FORSTEK D.O.O.

Dvorana D 2 / Hall D 2

[www.forstek.si](http://www.forstek.si)  
Planinska cesta 15, 1431 Dol pri Hrastniku  
Slovenija / Slovenia

Forstek je sodobno podjetje, z najnovejšo orodjarsko tehnološko opremo. Odlikujejo ga izkušeni strokovnjaki s specialnimi znanji s področja konstruiranja in izdelave orodij ter vrsta inovativnih delavcev, ki nenehno razvija nove tehnološke rešitve. Izjemna prednost podjetja pa je zavzetost za nudenje najboljših rešitev za svoje kupce, tako pri reševanju težav, kot tudi pri razvoju novih tehnologij in orodij.

Forstek is a modern company, with the latest toolmaking technological equipment. It is distinguished by experienced experts with special knowledge in the field of tool design and manufacturing, as well as a number of innovative workers who are constantly developing new technological solutions. The company's outstanding advantage is its commitment to providing the best solutions for its customers, both in solving problems and in developing new technologies and tools.

### FORTIS PROTECTION SYSTEMS GROUP D.O.O.

Dvorana K 36 / Hall K 36

[www.fortis-protection.com](http://www.fortis-protection.com)  
Celovška 36, 1000 Ljubljana  
Slovenija / Slovenia

FPS se primarno ukvarja z razvojem inovativnih in lahkih materialov za balistično zaščito nepremičnin in vseh vrst vozil (za policijo, vojsko in civilni sektor). Balistične zaščite, ki se običajno uporabljajo, so težke, debele in okorne, nove kombinacije materialov in novi načini njihovega spajanja pa omogočajo uporabo bistveno tanjših in lažjih materialov, ki nudijo enake stopnje balistične zaščite. Pri tem smo uspešni tako pri neprosojnih kot tudi pri povsem transparentnih materialih (steklih).

FPS is primarily engaged in the development of innovative and lightweight materials for ballistic protection of real estate and all types of vehicles (for the police, military and civilian sector). Ballistic protections that are usually used are so heavy, thick and cumbersome, new combinations of materials and new ways of joining them using significantly thinner and lighter materials that offer the same levels of ballistic protection. We are successful in this with both opaque and completely transparent materials (glass).

### GDELS

Dvorana D 18 / Hall D 18

[www.gdels.com](http://www.gdels.com)  
Bleibtreustrasse 2, 1110 Vienna  
Avstrija / Austria

General Dynamics European Land Systems is an original equipment manufacturer, systems integrator and service provider. We provide innovative wheeled and tracked armored vehicles and highly mobile bridge systems to Europe and the world.

## GOIS - GROZD OBRAMBNE INDUSTRIJE SLOVENIJE | SLOVENIAN DEFENCE INDUSTRY CLUSTER

www.giz-gois.eu  
Dimičeva ulica 13, 1000 Ljubljana  
Slovenija / Slovenia

Dvorana D 10 / Hall D 10

Slovenska obrambna industrija: razvoj, inovacije in mednarodno sodelovanje

Slovenska obrambna industrija je dejavna na številnih ključnih področjih, kjer s svojim znanjem in inovacijami krepi pomembno vlogo v mednarodnem obrambnem sektorju. Še vedno predstavlja nepogrešljiv del globalnih dobaviteljskih verig, hkrati pa se – ob podpori Ministrstva za obrambo RS, ki letno nameni več kot 23 milijonov evrov – vse bolj usmerja v razvoj končnih produktov za zagotavljanje nacionalne obrambne suverenosti.

Osrednji razvojni poudarki segajo od avtonomnih sistemov in oborožitvenih postaj do naprednih tehnologij, ki podpirajo zeleni prehod. Prav zaradi te osredotočenosti slovenska obrambna industrija izstopa po zmožnosti hitrega razvoja inovativnih in tehnološko naprednih rešitev, vključno s tehnologijami dvojne rabe, prilagojenimi sodobnim vojaškim in varnostnim izzivom. Zmožna je v izjemno kratkem času zagotoviti visokotehnološke rešitve tudi za najzahtevnejša operativna okolja.

Struktura in ekonomski pomen

Podjetja slovenske obrambne industrije so povezana v Grozdu Obrambne Industrije Slovenije (GOIS), ki povezuje nosilce znanja, tehnologije in poslovne priložnosti. Njihovi izdelki in storitve obsegajo širok spekter ključnih področij:

- Informacijsko-komunikacijska tehnologija in kibernetna varnost
- Optika, elektronika in komunikacije
- Orožje in strelivo
- Vozila, plovila in zrakoplovi
- Osebna zaščitna oprema
- Raziskave in razvoj
- Trgovina in poslovna podpora

Slovenska obrambna industrija tako dokazuje, da s strateškim razvojem, inovacijami in povezovanjem lahko uspešno soustvarja prihodnost evropske in globalne varnosti.

Slovenian Defence Industry: development, innovation and international cooperation

The Slovenian defence industry is active in a number of key areas, where it strengthens its important role in the international defence sector with its knowledge and innovations. It still represents an indispensable part of global supply chains, but at the same time – with the support of the Ministry of Defence of the Republic of Slovenia, which allocates more than 23 million euros annually – it is increasingly focusing on the development of end products to ensure national defence sovereignty.

The main development emphases range from autonomous systems and armament stations to advanced technologies that support the green transition. It is precisely because of this focus that the Slovenian defence industry stands out for its ability to rapidly develop innovative and technologically advanced solutions, including dual-use technologies, adapted to modern military and security challenges. It is capable of providing high-tech solutions for even the most demanding operational environments in an extremely short time.

Structure and economic significance

Slovenian defense industry companies are connected in the Slovenian Defense Industry Cluster (GOIS), which connects knowledge carriers, technologies and business opportunities.

Their products and services cover a wide range of key areas:

- Information and communication technology and cybersecurity
- Optics, electronics and communications
- Weapons and ammunition
- Vehicles, vessels and aircraft
- Personal protective equipment
- Research and development
- Trade and business support

The Slovenian defense industry thus proves that through strategic development, innovation and networking it can successfully co-create the future of European and global security.

## **GROUP 22 D.O.O.**

Dvorana K 2 / Hall K 2

[www.group22.si](http://www.group22.si)  
Babičeva ulica 1, 1000 Ljubljana  
Slovenija / **Slovenia**

Podjetje Group 22 je bilo ustanovljeno leta 2002 z namenom dobave visoko kakovostno opremo na področju zaščite, varnosti in reševanja. Med našimi kupci so Ministrstvo za obrambo, Ministrstvo za notranje zadeve ter Ministrstvo za pravosodje, sodelujemo pa tudi s primerljivimi institucijami v sosednjih državah. Poleg tega razvijamo in ponujamo zanesljive ter tehnično dovršene storitve in rešitve, prilagojene potrebam uporabnikov.

Group 22 was established in 2002 with the purpose of supplying high-quality equipment in the fields of protection, security, and rescue. Our customers include the Ministry of Defence, the Ministry of the Interior, and the Ministry of Justice, and we also cooperate with comparable institutions in neighboring countries. In addition, we develop and provide reliable, technically advanced services and solutions tailored to the specific needs of our users.

## **ACCURACY INTERNATIONAL**

Dvorana K 2 / Hall K 2

[www.accuracyinternational.com](http://www.accuracyinternational.com)  
PO Box 81, PO3 5SJ Portsmouth  
Združeno kraljestvo / **United Kingdom**

Podjetje Accuracy International iz Velike Britanije velja za enega vodilnih proizvajalcev oostrostrelskih pušk. Njihovi izdelki združujejo izredno preciznost, premišljeno konstrukcijo in dolgo življenjsko dobo, kar jim je prineslo sloves pri vojaških in policijskih enotah po svetu. Najbolj znane so serije AX, AT in AXSR, ki so postale referenca na področju streljanja na velike razdalje.

Accuracy International (UK) is recognized as one of the world's leading manufacturers of sniper rifles. Its products combine outstanding precision, thoughtful design, and long service life, which has earned the company a strong reputation among military and law enforcement units globally. The most well-known series – AX, AT, and AXSR – have become the benchmark for long-range shooting.

## **AIMPOINT**

Dvorana K 2 / Hall K 2

[www.aimpoint.com](http://www.aimpoint.com)  
Jägershillgatan 15, SE-213 75 Malmö  
Švedska / **Sweden**

Švedsko podjetje Aimpoint je sinonim za namerilne naprave z rdečo piko. Že od leta 1975 razvijajo učinkovite in energetske varčne namerilne naprave, ki jih uporabljajo vojske, policija in civilni uporabniki po vsem svetu. Njihova široka paleta namerilnih naprav in Fire Control Systems FCS-14 (Sistem za nadzor ognja) je priljubljena zaradi enostavne uporabe, dolge avtonomije baterij in visoki natančnosti.

Aimpoint (Sweden) is synonymous with red-dot sight technology. Since 1975, the company has been developing effective and energy-efficient aiming devices used by armed forces, police, and civilian users worldwide. Its wide range of sights and Fire Control Systems FCS-14 is highly valued for ease of use, extended battery life, and superior accuracy.

## **DILLON AERO**

Dvorana K 2 / Hall K 2

[www.dillonaero.com](http://www.dillonaero.com)  
21615 North 7th Avenue, AZ 85027 Phoenix  
ZDA / **USA**

Ameriško podjetje Dillon Aero se ukvarja z razvojem in proizvodnjo orožnih sistemov za zračne, pomorske in kopenske platforme. Njihov najprepoznavnejši izdelek, visoko zmogljiv mitraljez M134D »Minigun«, slovi po izjemni ognjeni moči, enostavnem vzdrževanju in zanesljivem delovanju. Podjetje opremlja številne vladne organizacije in vojaške enote po svetu ter zagotavlja stalno tehnično podporo.

Dillon Aero (USA) specializes in the development and production of weapon systems for airborne, naval, and ground platforms. Its flagship product, the high-performance M134D "Minigun", is renowned for its exceptional firepower, ease of maintenance, and operational reliability. The company supplies numerous government organizations and military units worldwide, while ensuring continuous technical support.

## SCHMITT & BENDER

Dvorana K 2 / Hall K 2

[www.schmidtbender.de/en/](http://www.schmidtbender.de/en/)  
Am Großacker 42, 35444 Biebertal  
Nemčija / Germany

Nemški proizvajalec Schmidt & Bender ima dolgo tradicijo izdelave optičnih namerilnih naprav. Njihove optične namerilne naprave za puške se odlikujejo po natančnosti, robustnosti in dosledni kakovosti, zaradi česar jih uporabljajo številne vojaške in policijske enote ter športni strelci. S kombinacijo nemške inženirske dovršenosti in sodobnih tehnoloških rešitev podjetje postavlja merila v optični industriji.

Schmidt & Bender (Germany) has a long-standing tradition of manufacturing optical rifle scopes. Their products are distinguished by precision, robustness, and consistent quality, making them the choice of numerous military and police units as well as competitive shooters. By combining German engineering excellence with cutting-edge technology, the company continues to set industry standards in optics.

## THEON SENSORS

Dvorana K 2 / Hall K 2

[www.theon.com](http://www.theon.com)  
57, Ioannou Metaxa str., GR-19441 Koropi  
Grčija / Greece

Grško podjetje Theon Sensors je specializirano za elektrooptične in infrardeče naprave za opazovanje in nadzor. Njihov portfelj zajema napredne nočne in termalne naprave, ki jih uporabljajo oborožene sile po vsem svetu. Podjetje slovi po tehnološki naprednosti, partnerskem pristopu in prilagodljivih rešitvah za uporabnike, ki omogočajo uspešno operativno delovanje tudi v najzahtevnejših razmerah in okoljih.

Theon Sensors (Greece) specializes in electro-optical and infrared observation and surveillance systems. Its portfolio includes advanced night-vision and thermal devices used by armed forces around the world. The company is recognized for its technological sophistication, partnership-oriented approach, and flexible user-focused solutions, ensuring effective operational performance even in the most demanding environments.

## GUARDIARIS

Atrij 7 / Atrium 7

[www.guardiaris.com](http://www.guardiaris.com)  
Kamniška 39a, 1000 Ljubljana  
Slovenija / Slovenia

V podjetju Guardiaris ustvarjamo najsodobnejše vojaške simulatorje, ki vojake pripravljajo na resnične misije. Naša ekipa združuje znanost, tehnologijo in strast, da bi zagotovila popolnoma poglobljene, prilagojene rešitve za usposabljanje. Od simulatorjev strelnega orožja do kompleksnih simulatorjev vozil, vse, kar gradimo, temelji na realizmu, natančnosti in zmogljivosti. Naše lastniške tehnologije, kot sta generator slik GUARD™ in sledenje na osnovi LED, postavljajo nove standarde v obrambnem usposabljanju. Ne samo simuliramo, ampak usposabljanje izboljšujemo s kognitivnim vpogledom in biometrijo. Pridružite se nam, ko bomo na novo opredelili način usposabljanja svetovnih oboroženih sil. V podjetju Guardiaris treniramo možgane, ne le telesa. Skupaj oblikujemo prihodnost.

At Guardiaris, we create cutting-edge military simulators that prepare soldiers for real-life missions. Our team blends science, tech, and passion to deliver fully immersive, tailor-made training solutions. From small arms to complex vehicle simulators, everything we build is driven by realism, precision, and performance. Our proprietary technologies, like GUARD™ image generator and LED-based tracking, set new standards in defense training. We don't just simulate, we elevate training with cognitive insight and biometrics. Join us as we redefine how the world's forces train. At Guardiaris, we train the brain, not just the body. Let's shape the future together.

## HECKLER & KOCH GMBH

Dvorana K 19 / Hall K 19

[www.heckler-koch.com](http://www.heckler-koch.com)  
Heckler und Koch Strasse 1, 78727 Oberndorf a. N.  
Nemčija / Germany

Orožje majhnega kalibra in dodatki za vojaško in policijsko uporabo

Small Arms & amp; Accessories for Military and Law Enforcement application

## HENSOLDT

Dvorana K 9 / Hall K 9

[www.hensoldt.net](http://www.hensoldt.net)  
Woertstr 85, 89077 Ulm  
Nemčija / Germany

HENSOLDT je nemški prvak v obrambni industriji na vseh področjih – zrak, kopno, morje, vesolje in kibernetska industrija – z vodilnim položajem v Evropi in globalnim dosegom.

HENSOLDT is a German champion in the defence industry across all domains Air, Land, Sea, Space and Cyber with a leading position in Europe and a global reach.

## HIRTENBERGER DEFENCE EUROPE GMBH

Dvorana K 31 / Hall K 31

[hds.hirtenberger.com](http://hds.hirtenberger.com)  
Leobersdorfer Str. 31, 2552 Hirtenberg  
Avstrija / Austria

Podjetje Hirtenberger Defence Systems (HDS) je svetovno aktiven razvijalec, proizvajalec in ponudnik minometnih sistemov. Paleta izdelkov, ki jo sestavljajo minometno strelivo, orožni sistemi, pomožna terenska oprema ter sistemi za merjenje in opazovanje, ponazarja raznolikost tehnologij in znanja, ki jih uporablja HDS.

The Hirtenberger Defence Systems (HDS) Company is a worldwide active developer, manufacturer and provider of mortar systems. The product range, consisting of mortar ammunitions, weapon systems, auxiliary field equipment, aiming and sighting systems illustrates the variety of technologies and know-how used by HDS.

Izjemna zmogljivost minometnih sistemov HDS je rezultat kombinacije več ključnih tehnologij in znanja za sinhronizacijo razvoja minometov in ustreznega minometnega streliva.

The outstanding performance of HDS mortar systems is a result of the combination of several key technologies and know-how how to synchronize the developments of mortars and corresponding mortar ammunition.

## HOGGBERG

Dvorana K 38 / Hall K 38

[www.hoggberg.com](http://www.hoggberg.com)  
Partizanska cesta 5, 2000 Maribor  
Slovenija / Slovenia

Vaša blagovna znamka v ospredju. Naš razvoj v ozadju. HOGGBERG je OEM partner, ki vaše ideje pretvori v končne naprave in komponente, ki se tržijo pod vašo blagovno znamko. Odstranimo težave v raziskavah in razvoju, da se lahko vaša ekipa osredotoči na kupce, prihodke in rast, medtem ko mi prevzamemo zasnovo, razvoj in inovacije. Razvijamo elektroniko, mehaniko, programiramo in z uporabo AI gradimo zanesljive mehatronske in optoelektronske sisteme za vaše platforme in procese. Vse od osnovnega koncepta in prototipa do proizvodnega inženiringa; poskrbimo za certifikacijo in testiranje na terenu. Smo zanesljiv partner, ki prevzame najzahtevnejši del, da vaš izdelek pride hitreje na trg. Posvetite se poslu ne težavam.

Your brand in front. Our R&D behind it. HOGGBERG is the OEM partner that turns your ideas and hard problems into finished devices and modules that ship under your label. We remove R&D roadblocks so your team can focus on customers, revenue, and scale while we take care of technology, research, design, and innovation. We combine electronics, mechanics, firmware, programming and AI skills to build reliable mechatronic and optoelectronic systems that integrate with your platform and your process. We move from proof of concept to production engineering, support certification and field tests, and deliver solutions ready for manufacture. One partner to own the hard part. Your product gets to market faster. We love the work that others fail.

## IKOM - KOVNICA D.O.O.

Dvorana C 27 / Hall C 27

[www.ikom.hr](http://www.ikom.hr)

Varaždinska cesta 76a, 10360 Popovec  
Hrvaška / Croatia

IKOM – KOVNICA – smo kovnica iz Zagreba, ki v večjem delu svojega proizvodnega programa gradi tradicijo že od leta 1946 in nenehno širi uporabo svojih tehnologij na področjih kovanja, graviranja, prevlek, emajliranja, galvanizacije in podobnega. V omenjenem obdobju in vse do danes je IKOM-KOVNICA znana po uporabnih tehnologijah, zlasti po mojstrih obrtnikih. Izdelki so izdelani iz različnih kovin (baker, železo, medenina, pogosteje zlato ali srebro in številne druge, nekatere obogatene z žganim emajlom), uporabljamo pa tudi druge materiale po željah strank. V našem obratu imamo ekološko galvanizacijsko tovarno, več strožnic, rezkalnih strojev, CNC gravirnih strojev, CNC žico, v naši kovnici pa imamo stiskalnice s tlakom od 5 do 1200 ton, izvajamo poliranje in galvanizacijo ter imamo tudi zlatarsko delavnico.

### DEJAVNOSTI IN IZDELKI

- Emajlirane ali reliefne značke in emblemi
- Odlikovanja za vojsko in policijo
- Uradne identifikacijske značke
- Značke za rever
- Spominska obeležja vojske, policije in gasilskih brigad
- Medalje, pokali in medaljoni za šport, upravo in organizacije
- Vse vrste priznanj
- Pasne zaponke
- Gravirani izdelki
- Jekleni žigi
- Kovinski gumbi
- Žare
- Storitve površinske obdelave kovin (galvanizacija, poliranje itd.)

Vse izdelke lahko izdelamo po meri in po željah strank.

IKOM - KOVNICA – we are a mint from Zagreb that has been in the bigger part of its current production program forging its tradition since 1946, constantly expanding the application of its technologies in the fields of minting, engraving, plating, enameling, electroplating and similar. In the mentioned period and up to today, IKOM-KOVNICA has been famous for the applied technologies especially for its master's artisans. The products are made of various metals (copper, iron, brass, more often gold or silver and many other, some of enriched with burned enamel) we also use other materials as per customers wishes. In our facility, we have an ecological electroplating factory, several lathes, milling machines, CNC engraving machines, wire CNC, and in our mint we have presses with pressure from 5 to 1200 tons, we do polishing and electroplating, and we also have a goldsmith's workshop.

### ACTIVITIES AND PRODUCTS

- Enamel or relief badges and emblems
- Decorations for the army and police
- Official identification badges
- Lapel pin badge
- Army, police and fire-brigades memorials
- Medals, cups and medallions for sports, administration and organizations
- All kind of rewards
- Belt-buckles
- Engraved products
- Steel stamps
- Metal buttons
- Urns
- Metal surface process services (electroplating, polishing etc.)

All products can be custom made according to the customers wishes.

## IMEXA D.O.O.

Atrij 2 / Atrium 2

[www.imexa.si](http://www.imexa.si)

Zaloška cesta 163, 1000 Ljubljana  
Slovenija / Slovenia

P TEAM – Hidravlične noge za dvigovanje, spuščanje in niveliranje kontejnerjev

P TEAM – Predelava kontejnerjev za terensko uporabo

P TEAM – Dvigovanje in privezovanje bremen

DISCOBED – Zložljive terenske postelje

BASELIGHT – Terenska razsvetljava

ZELT PARADIES – Šotori in paviljoni

P TEAM – Hydraulic legs for lifting, lowering and leveling containers

P TEAM – Container conversion for field use

P TEAM – Lifting and lashing loads

DISCOBED – Folding field beds

BASELIGHT – Field lighting

ZELT PARADIES – Tents and pavilions

## INSTITUT "JOŽEF STEFAN"

Dvorana C 21 / Hall C 21

[www.ijs.si](http://www.ijs.si)  
Jamova cesta 39, 1000 Ljubljana  
Slovenija / Slovenia

Odsek za plinsko elektroniko (F6), Institut "Jožef Stefan" Odsek F6 raziskuje plinsko elektroniko, plazemske znanosti, materiale, biomedicinske in biotehnoške aplikacije, napredne senzorje, elektronska stanja površin in kristalov ter vakuumске tehnologije. Specializacija odseka F6 je razvoj inovativnih metod v plazemski nanoznanosti, biomedicini in senzoriki, ki omogočajo nove aplikacije v obrambnem in varnostnem sektorju.

Department of Gaseous Electronics (F6), Jožef Stefan Institute The F6 Department conducts research in gaseous electronics, plasma science, materials, biomedical and biotechnological applications, advanced sensors, surface and crystal electronics, and vacuum technology. Its strength lies in developing innovative methods in plasma nanoscience, biomedicine, and sensing, enabling new applications in the defense and security sectors.

## INSTITUTE OF PHYSIOLOGY, MF UL

Dvorana C 21 / Hall C 21

Zaloška 4, 1000 Ljubljana  
Slovenija / Slovenia

Inštitut za fiziologijo, Medicinska fakulteta, Univerza v Ljubljani. Razvijamo na znanosti temelječe rešitve za izboljšanje človeške zmogljivosti, odpornosti in medicinske pripravljenosti. Naš program vključuje:

- Človeška fiziologija v ekstremnih okoljih
- Nevrostimulacija za izboljšanje zmogljivosti in pozornosti
- Digitalni dvojček človeške zmogljivosti

Simulacija terenske medicinske oskrbe

Z napredno podporo raziskavam in razvoju pomagamo partnerjem v obrambnem, varnostnem in visokozmogljivem sektorju pri soočanju z izzivi prihodnosti.

Institute of Physiology, Faculty of Medicine, University of Ljubljana.

We develop science-based solutions to improve human performance, resilience, and medical readiness. Our program includes:

- Human physiology in extreme environments
- Neurostimulation for performance and attention enhancement
- Human performance digital twin

Field medical treatment simulation

With advanced research and development support, we help partners in defense, security, and high-performance sectors meet the challenges of tomorrow.

## INTEREUROPA D.D., GLOBAL LOGISTICS SERVICE, LTD.CO.

Dvorana K 11 / Hall K 11

[www.intereuropa.si](http://www.intereuropa.si)  
Vojkovo nabrežje 32, 6000 Koper  
Slovenija / Slovenia

Zagotavljamo popoln nabor logističnih storitev: cestni, železniški, zračni, pomorski in ekspresni promet, carinske storitve in mejno odpravo ter popoln prevzem logističnih funkcij.

We provide a full range of logistics services: road, rail, air, sea and express transport, customs services and border clearance, and full takeover of logistics functions.

## JE&GR D.O.O.

Dvorana D 5 / Hall D 5

[www.je-gr.com](http://www.je-gr.com)  
Cesta 9. avgusta 100, 1410 Zagorje ob Savi  
Slovenija / Slovenia

Proizvajalec in razvijalec specializiranih izdelkov za obrambni in varnostni sektor, z dolgoletnimi izkušnjami v industriji.

Manufacturer and developer of specialized products for the defense and security sector, with many years of experience in the industry.

## KNDS

Dvorana D 19 / Hall D 19

[www.knds.fr](http://www.knds.fr)

13 route de la Minière, 78034 Versailles  
Francija / Francija

KNDS je vodilni evropski ponudnik sistemov kopenske obrambe z več kot 10.000 zaposlenimi, prometom v letu 2024 v višini 3,8 milijarde evrov, zaostankom naročil v višini približno 23,5 milijarde evrov in prejetimi naročili v višini 11,2 milijarde evrov v letu 2024. Kot glavni izvajalec in vodilni sistemski integrator KNDS razvija, dobavlja in vzdržuje naj sodobnejše "sisteme sistemov" z in brez posadke, celovite rešitve za misije ter svoje glavne sisteme in podplatforme, vključno s sorodnim strelivom in storitvami. Njegov portfelj izdelkov zajema glavne bojne tanke, oklepna vozila, topniške sisteme, orožne sisteme, strelivo, robotiko, vojaške mostove, storitve za stranke, battle management systems, rešitve za usposabljanje, rešitve za zaščito in široko paleto opreme. Zavezništvo med Krauss-Maffei Wegmann (zdaj KNDS Deutschland) in Nexterjem (zdaj KNDS France) je bil korak naprej pri konsolidaciji industrije sistemov kopenske obrambe v Evropi. KNDS postavlja kot ključnega dejavnika za evropsko suverenost, saj zadovoljuje potrebe svojih nacionalnih vojsk in evropskim strankam ter strankam iz Nata ponuja možnost večje standardizacije in interoperabilnosti njihove obrambne opreme z zanesljivo in odporno evropsko industrijsko bazo. KNDS je kot vodilni mednarodni vodja zaupanja vreden partner številnih oboroženih sil po vsem svetu. Sedež KNDS je v Amsterdamu.

KNDS is a European land defense systems leader with more than 10,000 employees, 2024 turnover of 3.8 billion euro, order backlog of around 23.5 billion euro and order intake of 11.2 billion euro in 2024. As prime contractor and lead system integrator KNDS develop, deliver and sustain state of the art manned and unmanned "system-of-systems", complete mission solutions and its main systems and sub-platforms, including the related ammunitions and services. Its product portfolio encompass main battle tanks, armored vehicles, artillery systems, weapons systems, ammunition, robotics, military bridges, customer services, battle management systems, training solutions, protection solutions and a wide range of equipment. The alliance between Krauss-Maffei Wegmann (now KNDS Deutschland) and Nexter (now KNDS France) has been a step forward in the consolidation of the land defense systems industry in Europe. It positions KNDS as a key contributor to European sovereignty by meeting the needs of the respective national armies and offering European and NATO customers the opportunity of increased standardization and interoperability for their defense equipment, with a dependable and resilient European industrial base. KNDS, as a major international leader, is the trusted partner of dozens of armed forces worldwide. KNDS headquarters are based in Amsterdam.

## KOMPAS TELEKOMUNIKACIJE D.O.O.

Dvorana D 4 / Hall D 4

[www.kompas-telekom.com](http://www.kompas-telekom.com)

Pot k sejmišču 30, 1231 Ljubljana-Črnuče  
Slovenija / Slovenia

KOMPAS Telekomunikacije d.d. (Slovenija) – Zanesljiv partner na področju napredne radijske komunikacije za varnostne in obrambne sile. Sodelujemo z globalnimi vodilnimi – L3Harris Technologies in Motorola Solutions – ter razvijamo lastni dispečerski sistem SITRAC za učinkovito upravljanje operacij v realnem času. Našo ponudbo dopolnjuje vrhunska dodatna oprema za varno in stabilno komunikacijo v najzahtevnejših okoljih.

KOMPAS Telekomunikacije d.d. (Slovenia) – A reliable partner in the field of advanced radio communication for security and defense forces. We cooperate with global leaders – L3Harris Technologies and Motorola Solutions – and develop our own dispatching system SITRAC for efficient real-time operation management. Our offer is complemented by top-quality additional equipment for secure and stable communication in the most demanding environments.

## KOLEKTOR

Dvorana C 5 / Hall C 5

[www.kolektor.com](http://www.kolektor.com)  
Vojkova ulica 10, 5280 Idrija  
Slovenija / Slovenia

S 60-letno tradicijo in izkušnjami na področju razvoja in proizvodnje komponent ter sistemov za e-mobilnost se uvrščamo med najzanesljivejše globalne ponudnike tehnologije in strokovnega znanja za celovite rešitve na področju brezkrtačnih motorjev s trajnimi magneti.

Predstavljamo inovativne BLDC-motorje, pogone in e-črpalke, zasnovane za naslednjo generacijo elektrificiranih terenskih, navtičnih in industrijskih aplikacij. Z naraščajočim povpraševanjem po trajnostnih in energetske učinkovitih rešitvah naše tehnologije prispevajo k razvoju panoge, saj zagotavljajo zanesljive in visoko zmogljive elektrifikacijske komponente.

With 60 years of tradition and experience in the development and production of components and systems for e-mobility, we are among the most reliable global providers of technology and expertise for complete solutions in the field of brushless permanent magnet motors.

We present innovative BLDC motors, drives and e-pumps designed for the next generation of electrified off-road, marine and industrial applications. With the growing demand for sustainable and energy-efficient solutions, our technologies contribute to the development of the industry by providing reliable and high-performance electrification components.

## KOVINOPLASTIKA LOŽ D.O.O.

Dvorana K 41 / Hall K 41

[www.kovinoplastika.si/en/components](http://www.kovinoplastika.si/en/components)  
Cesta 19. oktobra 57, 1386 Stari trg pri Ložu  
Slovenija / Slovenia

Kovinoplastika Lož d.o.o. je tehnološko napredno podjetje, specializirano za razvoj, načrtovanje in proizvodnjo orodij in visoko preciznih komponent iz kovine in ZAMAK-a. Podjetje ponuja celovite rešitve na področju orodjarstva, vključno s CAD/CAM načrtovanjem, CNC obdelavo in montažo orodij, s podporo tako prototipne kot serijske proizvodnje. Kovinoplastika Lož proizvaja kompleksne tehnične komponente za zahtevne panoge, kot so avtomobilska, elektro in gradbena industrija. Z bogatim lastnim strokovnim znanjem na področju razvoja orodij, brizganja cinka, štancanja kovin in površinske obdelave, podjetje svojim partnerjem zagotavlja optimalno kakovost izdelkov, ponovljivost in stroškovno učinkovitost.

Kovinoplastika Lož d.o.o. is a technologically advanced company specializing in the development, design, and manufacturing of tools and high-precision components made from metal and ZAMAK. The company offers end-to-end solutions in toolmaking, including CAD/CAM design, CNC machining, and tool assembly, supporting both prototype and serial production. Kovinoplastika Lož manufactures complex technical components for demanding industries such as automotive, electro and construction. With extensive in-house expertise in tool development, zinc die casting injection, metal stamping, and surface treatment, the company ensures optimal product quality, repeatability, and cost-efficiency for its partners.

## LEONARDO S.P.A.

Dvorana K 16 in Atrij 3 / Hall K 16 and Atrium 3

[www.leonardo.com/en/home](http://www.leonardo.com/en/home)  
Piazza Monte Grappa, 4, 195 Rome  
Italija / Italy

Leonardo je vodilno svetovno podjetje na področju vesoljske, obrambne in varnostne (AD&S) tehnologije. Z 51.000 zaposlenimi po vsem svetu deluje na področjih helikopterjev, elektronike, letal, kibernetike in varnostne tehnologije ter vesolja ter je ključni partner v večjih mednarodnih programih, vključno z Eurofighterjem, NH-90, FREMM, GCAP in Eurodrone. Leonardo ima znatne industrijske zmogljivosti v Italiji, Združenem kraljestvu, na Poljskem in v ZDA ter deluje tudi prek hčerinskih družb, skupnih vlaganj in deležev, vključno z Leonardo DRS (72,3 %), MBDA (25 %), ATR (50 %),

Leonardo is a leading global Aerospace, Defence and Security (AD&S) company. With 51,000 employees worldwide, it operates in the fields of Helicopters, Electronics, Aircraft, Cyber & Security and Space, and is a key partner in major international programmes including Eurofighter, NH-90, FREMM, GCAP and Eurodrone. Leonardo has significant industrial capabilities in Italy, the UK, Poland, and the US and also operates through subsidiaries, joint ventures and stakes, including Leonardo DRS (72.3%), MBDA (25%), ATR (50%), Hensoldt (22.8%), Telespazio (67%), Thales Alenia Space (33%) and Avio (29.6%). Listed on the Milan Stock Exchange

Hensoldt (22,8 %), Telespazio (67 %), Thales Alenia Space (33 %) in Avio (29,6 %). Leonardo, ki kotira na milanski borzi (LDO), je v letu 2022 poročal o novih naročilih v višini 17,3 milijarde evrov, z zaostankom naročil v višini 37,5 milijarde evrov in konsolidiranimi prihodki v višini 14,7 milijarde evrov. Podjetje je vključeno v indeks MIB ESG in je od leta 2010 del indeksov trajnosti Dow Jones (DJSI).

(LDO), Leonardo reported new orders of €17.3 billion in 2022, with an order backlog of €37.5 billion and consolidated revenues of €14.7 billion. The company is included in the MIB ESG index and has been part of the Dow Jones Sustainability Indices (DJSI) since 2010.

## MESKO S.A.

Dvorana C 14 / Hall C 14

[www.mesko.com.pl](http://www.mesko.com.pl)  
Legionow 122 St., 26111 Skarzysko-Kamienna  
Poljska / Poland

MESKO je proizvajalec vojaških izdelkov svetovnega razreda s 100-letnimi proizvodnimi izkušnjami. Osrednja dejavnost podjetja MESKO zajema proizvodnjo za namene nacionalne obrambe in varnosti. Naše izdelke uporabljajo poljske oborožene sile in subjekti, odgovorni za nacionalno varnost. MESKO je tudi pooblaščen dobavitelj vojaških izdelkov za enote Nata. Podjetje ima sodobno tehnologijo za proizvodnjo raket in streliva, vključno s podkalibrskim strelivom, ter infrastrukturo za demilitarizacijo zastarelih bojnih sredstev.

MESKO is the producer of world-class military products with 100 years of manufacturing experience. The core range of MESKO's activities covers production for the national defence and security purposes. Our products are used by Polish Armed Forces and entities responsible for national security. MESKO is also an eligible supplier of military products for NATO troops. The company possesses modern technology for the production of rockets and ammunition, including sub-caliber ammunition, as well as infrastructure for the demilitarization of outdated combat resources.

## MIL SISTEMIKA INT D.O.O.

Z našim strateškim znanjem in obsežnim strokovnim znanjem na področju javnih naročil, sistemske integracije, vzdrževanja in usposabljanja podpiramo vaš projekt od predloga do zaključka in tudi pozneje, pri čemer zagotavljamo najvišje varnostne, etične, operativne in mednarodne regulativne standarde. Izkoristite naše poglobljeno poznavanje panoge in več kot 25 let izkušenj z zagotavljanjem naprednih rešitev na ključ v obrambnem in javnem varnostnem sektorju v jadranskih državah.

At Panna Plus, we are a long-standing strategic partner committed to providing the highest quality services for each step in your project's life cycle. With our strategic know-how and extensive expertise in procurement, system integration, maintenance, and training, we support your project from proposal to completion and beyond, ensuring the highest safety, ethical, operational, and international regulatory standards. Leverage our deep industry knowledge and more than 25 years of experience with delivering advanced turn-key solutions across the defence and public safety sectors in the Adriatic countries

## ALFORD TECHNOLOGIES

Dvorana D 11 / Hall D 11

[www.explosives.net](http://www.explosives.net)  
Alford House, Epsom Square, White Horse Business  
Park, Trowbridge, BA14 0XG Wiltshire  
Združeno Kraljestvo / United Kingdom

Alford Technologies je britansko podjetje, ki ga je leta 1985 ustanovil dr. Sidney Alford. Kot večkrat nagrajeni ponudnik naprednih rešitev na področju eksplozivnega inženiringa je podjetje znano po inovacijah, med drugim po prvem na svetu s tekočino obloženem eksplozivnem motilcu. Sedež imajo v Trowbridgeu (Wiltshire), svoje storitve pa zagotavljajo vojaškim, vladnim in komercialnim strankam po vsem svetu.

Specializirani so za eksplozivno vdiranje, EOD (odstranjevanje neeksplozivnih ubojnih sredstev), C-IED (protiimprovizirane eksplozivne naprave), UXO (neeksplozivna ubojna sredstva) in CMD (odstranjevanje konvencionalnega orožja). Njihovi patentirani in preizkušeni sistemi so zasnovani za operativno učinkovitost in varnost uporabnikov ter jih uporabljajo elitne enote po vsem svetu.

Poleg tega podjetje nudi strokovna usposabljanja prek Alford Training, ki potekajo na poligonu Broadmead Range v jugozahodni Angliji. Programi vključujejo C-IED, EOD, WTI (tehnična obveščevalna dejavnost o orožju), HME (doma izdelani eksplozivi) in eksplozivno vdiranje, vodijo pa jih izkušeni strokovnjaki.

Zavezani zaščiti življenj Alford Technologies združuje raziskave, inovativno zasnovo in temeljito testiranje, da ostaja vodilni na področju eksplozivnega inženiringa ter krepi varnost v zahtevnih okoljih.

Alford Technologies – Company Profile  
Founded in 1985 by Dr Sidney Alford, Alford Technologies is a UK-based, award-winning provider of advanced explosive engineering solutions. With a legacy rooted in innovation, the company is renowned for pioneering technologies such as the world's first liquid-lined explosive disruptor. Headquartered in Trowbridge, Wiltshire, Alford Technologies serves military, government, and commercial clients globally. Specialising in explosive breaching, EOD (Explosive Ordnance Disposal), C-IED (Counter-IED), UXO (Unexploded Ordnance), and CMD (Conventional Munitions Disposal), the company offers a range of patented, field-proven tools designed for operational effectiveness and user safety. Its solutions are trusted by elite units and specialist teams worldwide. Alford Technologies also delivers expert training through Alford Training, based at its secluded Broadmead Range facilities in the South West of England. The training programmes cover C-IED, EOD, WTI (Weapons Technical Intelligence), HME (Homemade Explosives), and explosive breaching, led by a team of subject matter experts with extensive field experience. Driven by a mission to protect lives, Alford Technologies combines cutting-edge research, practical design, and rigorous testing to remain at the forefront of explosives engineering. Its commitment to excellence, safety, and innovation continues to shape the future of operational capability in high-risk environments.

## ANDRES INDUSTRIES AG

Dvorana D 11 / Hall D 11

[www.andres-industries.de](http://www.andres-industries.de)  
Weißenseer Weg 37, 13055 Berlin  
Nemčija / Germany

Z intenzivnim sodelovanjem s specialnimi enotami po vsem svetu ne zagotavljamo le, da naši izdelki izpolnjujejo najvišje standarde, temveč tudi, da so optimalno prilagojeni specifičnim zahtevam uporabe. To partnerstvo nam omogoča razvoj vrhunske tehnologije nočnega vida, ki v vseh pogledih izpolnjuje stroge specifikacije in pričakovanja enot.

Through intensive cooperation with special forces worldwide, we not only ensure that our products comply with the highest standards, but also that they are optimally adapted to the specific requirements of their use. This partnership enables us to develop high-quality night vision technology that meets the strict specifications and expectations of the units in every respect.

## AVON PROTECTION

Dvorana D 11 / Hall D 11

[www.beaufort.group](http://www.beaufort.group)  
Aviator Industrial Park, Eric Fountain Road,  
CH65 1AX Ellesmere Port  
Združeno Kraljestvo / United Kingdom

Beaufort je zanesljiv vodilni na področju zaščite sil, ustvarjamo najmanjše, najlažje in hkrati najzmogljivejše rešitve za zrak, kopno in globine morja. Naše poslanstvo je jasno: opolnomočiti vsakega operaterja na terenu, da doseže vrhunske rezultate. Z najnovejšo tehnologijo preživetja in zaščitnimi sistemi prihodnje generacije razvijamo integrirane rešitve, ki zmanjšujejo težo, povečujejo vzdržljivost in varujejo življenje, brez

Beaufort is a trusted leader in force protection, delivering the smallest, lightest, and highest-performing solutions across air, land and sub-sea. Our mission is simple: to enhance the performance of every operator in the field. From advanced survivability technologies to next-generation protective systems, our integrated solutions are engineered to reduce weight, increase endurance, and safeguard lives, without compromise. In today's complex,

## Predstavitev razstavljalcev po abecednem vrstnem redu Presentation of Exhibitors in alphabetical order

kompromisov. V svetu, kjer so izzivi vedno bolj zapleteni in večdimenzionalni, Beaufort obrambnim silam zagotavlja odločilno prednost takrat, ko to najbolj šteje.

multi-domain environment, Beaufort empowers defence forces to achieve mission success when it matters most.

### DYNAMIT NOBEL DEFENCE

Dvorana D 11 / Hall D 11

Dynamit Nobel Defence GmbH (DND) je priznana nemško srednje veliko podjetje za obrambo in neposredni naslednik družb Dynamit Nobel, ki so pripadale Alfred Nobel Group. Čeprav samostojno poslujemo od leta 2004, naša zgodba temelji na več kot 60-letni tradiciji strokovnega znanja pri razvoju in proizvodnji vrhunskih obrambnih sistemov.

Naše osrednje področje je razvoj in izdelava orožij za izstrelitev z rame – protiolepkih, proti-strukturnih in večnamenskih (seriji Panzerfaust 3 in RGW). A naša vizija sega dlje: nenehno širimo strokovno znanje in produkti portfelj, da ostajamo korak pred izzivi prihodnosti.

Danes ponujamo najnaprednejše tehnologije zaščite vozil (reaktivni oklep in protipožarna zaščita), rešitve za omejevanje mobilnosti, tehnologije za civilno in komercialno rabo ter široko paleto rešitev za digitalizacijo oboroženih sil. Poseben poudarek namenjamo taktični komunikaciji in sodelovanju, vključno z uporabo brezposadkovnih sistemov ter njihovo integracijo v senzorska in učinkovita omrežja.

Dynamit Nobel Defence GmbH (DND) is a German medium-sized defense company and a direct successor of the Dynamit Nobel companies belonging to the Alfred Nobel Group. Spun-off in 2004, DND's success stretches back over 60 years of expertise in the development and production of high-class defence products.

DND's core business is the development and production of shoulder launched weapons for anti-tank, anti-structure and multipurpose uses (Panzerfaust 3 and RGW series), but our fields of expertise and our product portfolio are constantly expanding.

Today we provide vehicle protection technologies (reactive armor & fire protection), counter mobility solutions, technologies for civil commercial uses as well as a range of solutions for the digitization of armed forces with a focus on solutions for tactical communication & collaboration including the use of uncrewed systems and their integration in sensor and effect networks.

### ERA

Dvorana D 11 / Hall D 11

ERA je vodilno podjetje na področju multilateracije, večstatičnega nadzora in izvidniške tehnologije. Razvijamo, proizvajamo in uvajamo sisteme ključnega pomena za vojaške in civilne namene. V zadnjih treh desetletjih je ERA izvedla več kot 160 namestitev v več kot 70 državah na petih celinah, z neprekinjenim delovanjem 24/7.

ERA is leading company in multilateration, multistatic surveillance, and reconnaissance technology. We develop, manufacture and implement mission-critical systems for military and civil purposes. Over last 3 decades ERA reached number of more than 160 installations, deployed in over 70 countries on 5 continents with 24/7 operations.

### FORCIT DEFENCE

ZI du Moros, BP521, 29185 CONCARNEAU  
Francija / France

Piriou je ladjedelnica v Concarneauju (Francija), ki z lastnimi oblikovalskimi ekipami in proizvodnimi obrati v Evropi, Afriki in Aziji gradi in vzdržuje plovila do 120 m dolžine.

Prek blagovne znamke Kership, v partnerstvu z Naval Group, je specializirana za pomorsko varnost in obrambo. Kership razvija in gradi ladje za mornarice, obalne straže, carino ter druge institucije ter nudi podporo skozi celoten življenjski cikel plovil.

Ponudba vključuje:

Patruljne ladje za odprto morje za varnost, boj proti nezakonitim dejavnostim in obrambo;

Specializirana plovila za protiminsko bojevanje, hidro-oceanografijo, logistiko, amfibijske naloge in usposabljanje.

Robustna in preizkušena plovila zagotavljajo visoko operativno zanesljivost in varnost na morju.

Piriou is a shipyard located in Concarneau, in the west of France. As an all-round specialist, Piriou provides made-to-measure services and build and repair all types of vessels up to 120 meters in length, thanks to its in-house design teams and production facilities in Europe, Africa and Asia.

Piriou addresses the maritime security and safety market through its Kership brand, a joint venture shared with Naval Group, the leader in naval defence. Specializing in ships for use in Law Enforcement at Sea, Kership designs and builds your ships and assists you throughout their lifecycle with services ranging from training to in-service support.

While listening to Navies, coastguards, customs and other institutions, Kership meets the whole of your needs with its range of sturdy ships ensuring high operational level.

A complete range of sturdy proven ships:

- Offshore patrol vessels, focusing on security operations, the combat against illicit trafficking and maritime defence;
- Specialized vessels, dedicated to such vocations as mine warfare, hydro-oceanography, support (multi-mission, logistical, amphibious) and training.

Solvang 30, 3450 Allerød  
Danska / Denmark

Weibel opremlja obrambne sile s sistemi kratkodosežne zračne obrambe in radarji za boj proti dronom za najbolj zahtevne operacije, hkrati pa je tudi vodilni svetovni proizvajalec radarske merske tehnologije.

Weibel equips defense forces with Short-Range Air Defense and Counter-Drone radars for the most demanding operations, while also being a global leader in instrumentation radar technology.

## PATRIA

Dvorana K 33 / Hall K 33

[www.patriagroup.com](http://www.patriagroup.com)  
Arkadiankatu 2, 100 Helsinki  
Finska / Finland

Patria je mednarodni ponudnik storitev podpore življenjskemu ciklu obrambe, varnosti in letalstva, tehnoloških rešitev in usposabljanja pilotov. Patria svojim strankam v letalski in vojaški industriji zagotavlja razpoložljivost opreme, nenehen razvoj zmogljivosti ter izbrane izdelke in storitve obveščevalnih, nadzornih in upravljaljskih sistemov. Poslanstvo Patrie je svojim strankam v vseh pogojih vliti zaupanje, vizija pa je biti partner št. 1 za kritične operacije na kopnem, morju in v zraku. Patria ima več lokacij, vključno s Finsko, Švedsko, Norveško, Belgijo, Nizozemsko, Estonijo, Latvijo in Španijo. Patria zaposluje več kot 3000 strokovnjakov. Patria je v lasti države Finske (50,1 %) in norveškega podjetja Kongsberg Defence & Aerospace AS (49,9 %). Patria ima v lasti 50 % podjetja Nammo, ta tri podjetja pa skupaj tvorijo vodilno nordijsko obrambno partnerstvo.

Patria is an international provider of defence, security and aviation life cycle support services, technology solutions and pilot training. Patria provides its aerospace and military customers with equipment availability, continuous performance development as well as selected intelligence, surveillance and management system products and services. Patria's mission is to give its customers confidence in all conditions, and the vision is to be the #1 partner for critical operations on land, sea and air. Patria has several locations including Finland, Sweden, Norway, Belgium, the Netherlands, Estonia, Latvia and Spain. Patria employs over 3,000 professionals. Patria is owned by the State of Finland (50.1%) and Norwegian Kongsberg Defence & Aerospace AS (49.9%). Patria owns 50% of Nammo, and together these three companies form a leading Nordic defence partnership.

## PEK AUTOMOTIVE - SPECIAL-PURPOSE AUTONOMOUS ELECTRICAL VEHICLES

Dvorana K 1 / Hall K 1

[www.pek-defence.com](http://www.pek-defence.com)  
Obrtniška ulica 17, 1370 Logatec  
Slovenija / Slovenia

V podjetju PEK Automotive smo specializirani za razvoj široke palete nizkonapetostnih avtonomnih goseničnih električnih vozil, skupaj z naprednimi tehnologijami in aplikacijami za obrambo, reševalne operacije, industrijo, kmetijstvo in celo vesolje. Zahvaljujoč prilagodljivosti in enostavnemu prilagajanju naše platforme za električna vozila smo se razširili v obrambni sektor in razvili brezpilotna vozila (UGV) za različne aplikacije, vključno z razminiranjem, operacijami proti brezpilotnim letalnikom (UAV), bojem, logistiko, gašenjem požarov, reševanjem in podporo misijam. Če iščete zanesljivega partnerja pri oblikovanju brezpilotnih kopenskih vozil (UGV), smo odprti za sodelovanje in z veseljem raziščemo morebitna partnerstva.

At PEK Automotive, we specialize in developing a wide range of low-voltage autonomous tracked electric vehicles, along with advanced technologies and applications for defence, rescue operations, industry, agriculture, and even space. Thanks to the flexibility and easy customization of our electric vehicle platform, we have expanded into the defense sector, developing UGVs for various applications, including demining, counter-UAV operations, combat, logistics, firefighting, rescue, and mission support. If you are looking for a reliable partner in designing Unmanned Ground Vehicles (UGVs), we are open to collaboration and eager to explore potential partnerships.

## PELI CASE

## PIPISTREL AIRCRAFT BY TEXTRON EAVIATION

Dvorana D 21 / Hall D 21

[www.pipistrel-aircraft.com](http://www.pipistrel-aircraft.com)  
Vipavska cesta 2, 5270 Ajdovščina  
Slovenija / Slovenia

Pipistrel je proizvajalec lahkih letal za namen šolanja pilotov, prevoza ter opazovanja iz zraka. S posebno produktno linijo Surveyor Pipistrel omogoča, da se letalo upravlja s pilotom na krovu, ali pa preko zemeljske postaje na daljavo – kot brezpilotni letalnik visokih zmogljivosti.

Pipistrel is a manufacturer of light aircraft for pilot training, transport and aerial observation. With its special Surveyor product line, Pipistrel allows the aircraft to be operated with a pilot on board, or remotely via a ground station – as a high-performance unmanned aerial vehicle.

## PLAN B ARHITEKTI

Dvorana C 29 / Hall C 29

[www.planb.si](http://www.planb.si)  
Gregorčičeva 21b, 2000 Maribor  
Slovenija / Slovenia

Podjetje PLAN B d.o.o. je uveljavljen mednarodni ponudnik na področju projektiranja in izvajanja vseh prostorskih rešitev. S svojo vizijo dviga kakovosti grajenega okolja uresničujemo projekte z visoko strokovno izvedbo – od arhitekturnega projektiranja do načrtovanja okolja in izvedbe na ključ.

PLAN B d.o.o. is an established international provider in the field of design and implementation of all spatial solutions. With our vision of improving the quality of the built environment, we implement projects with highly professional execution – from architectural design to environmental planning and turnkey implementation.

Specializirani smo za arhitekturno projektiranje javnih, zdravstvenih, industrijskih in poslovnih objektov, pa tudi za prostorske rešitve lekarn, laboratorijev in drugih zahtevnih programov. Naše delo vključuje idejne zasnove in natečajne projekte, kjer so potrebni inovativni in vizionarski pristopi.

We specialize in architectural design of public, healthcare, industrial and commercial buildings, as well as spatial solutions for pharmacies, laboratories and other demanding programs. Our work includes conceptual designs and competition projects where innovative and visionary approaches are required.

Uporabljamo BIM projektiranje, sodobna digitalna orodja za učinkovito koordinacijo, optimizacijo stroškov in zanesljiv nadzor izvedbe. Pri vsakem projektu združujemo arhitekturo, inženiring in tehnologijo ter tako zagotavljamo interdisciplinarne, trajnostne in celostne rešitve.

We use BIM design, modern digital tools for effective coordination, cost optimization and reliable implementation control. In each project, we combine architecture, engineering and technology, thus providing interdisciplinary, sustainable and integrated solutions.

V našem že 25-letnem delovanju, ki sega od ustanovitve podjetja leta 2001, smo prisotni tako na slovenskem kot na mednarodnem trgu ter prejeli številna strokovna priznanja, med drugim Zlati svinčnik 2019 za odlično realizacijo in Zlati svinčnik 2017 za odlično izvedbo (Zbornica za arhitekturo in prostor Slovenije).

In our 25-year history, dating back to the founding of the company in 2001, we have been present on both the Slovenian and international markets and have received numerous professional awards, including the Golden Pencil 2019 for excellent realization and the Golden Pencil 2017 for excellent execution (Chamber of Architecture and Spatial Planning of Slovenia).

## PRIMALAB D.O.O.

Zastopnik podjetja Metrohm, proizvajalca visokokakovostnih inštrumentov za izvajanje kemijskih analiz. Njihovi ramanski analizatorji omogočajo hitro in natančno identifikacijo neznanih kemikalij, narkotikov, farmacevtskih zdravil, eksplozivov ter številnih drugih neznanih snovi.

Representative of Metrohm, a manufacturer of high-quality instruments for chemical analysis. Their Raman analyzers are needed for the rapid and accurate identification of unknown chemicals, narcotics, pharmaceuticals, explosives, and many other unknown substances.

## PROJEKT IP D.O.O.

Dvorana K 15 / Hall K 15

[www.projektip.si](http://www.projektip.si)  
Kolodvorska ulica 1, 6210 Sežana  
Slovenija / [Slovenia](#)

Projekt IP d.o.o., ustanovljen leta 2007, je specializiran za sistemsko integracijo in napredne IT rešitve na področju podatkovnih centrov, komunikacijskih omrežij in varnostnih sistemov. Nudimo celovite rešitve od načrtovanja do vzdrževanja IT sistemov, ključnih za uspešno delovanje. Naše storitve vključujejo rešitve za strežnike, komunikacijsko infrastrukturo in zaščito podatkov. Sledimo tehnološkim trendom ter zagotavljamo varnost in stabilnost sistemov. Strankam pomagamo pri vzpostavitvi varnih in učinkovitih omrežij ter optimizaciji delovanja IT sistema. Poleg standardnih IT rešitev razvijamo tudi mobilne računalniške centre za posebne namene, zgrajene v skladu s standardom MIL-STD-810, kar zagotavlja odpornost in zanesljivost tudi v zahtevnih okoljih. Naša zaveza k odličnosti in izobraževanju nam omogoča razvoj prilagodljivih rešitev za rast in inovacije. Stremimo k zanesljivosti in dolgi življenjski dobi robustnih sistemov.

Projekt IP d.o.o., founded in 2007, specializes in system integration and advanced IT solutions in the field of data centers, communication networks and security systems. We offer comprehensive solutions from planning to maintenance of IT systems, which are crucial for successful operation. Our services include solutions for servers, communication infrastructure and data protection. We follow technological trends and ensure the security and stability of systems. We help clients establish secure and efficient networks and optimize the operation of IT systems. In addition to standard IT solutions, we also develop mobile computing centers for special purposes, built in accordance with the MIL-STD-810 standard, which ensures resilience and reliability even in demanding environments. Our commitment to excellence and education enables us to develop flexible solutions for growth and innovation. We strive for the reliability and long lifespan of robust systems.

## RHEINMETALL

Dvorana D 12 / Hall D 12

## RISO D.O.O.

Dvorana C 29 / Hall C 29

www.riso.si  
Ribiška pot 18, 2230 Lenart  
Slovenija / Slovenia

Podjetjem in organizacijam, ki so naši naročniki oziroma za katere največkrat delujemo kot »hišna« svetovalna služba (večletna sodelovanja), v sklopu zaokroženih svetovalnih storitev z upoštevanjem smernic trajnostnega razvoja svetujemo pri: optimizaciji procesov poslovanja (digitalizacija), razvoju novih poslovnih modelov, razvoju novih produktov, pridobivanju ustreznih finančnih sredstev (subvencije, krediti itd.), doseganju okoljskih kazalnikov, vodenju projektov, pripravi različne dokumentacije.

As part of our comprehensive consulting services, we advise companies and organizations that are our clients or for which we most often act as an "in-house" consulting service (multi-year collaborations) on: optimizing business processes (digitalization), developing new business models, developing new products, obtaining appropriate financial resources (subsidies, loans, etc.), achieving environmental indicators, managing projects, and preparing various documentation, taking into account sustainable development guidelines.

## ROHDE & SCHWARZ ÖSTERREICH G. M. B. H. PODRUŽNICA V SLOVENIJI

Dvorana K 39 / Hall K 39

www.rohde-schwarz.com  
Bravničarjeva 13, 1000 Ljubljana  
Slovenija / Slovenia

Zaupanja vredne komunikacijske in obveščevalne rešitve, ki jih ponuja Rohde & Schwarz, omogočajo informacijsko superiornost in zagotavljajo zavedanje o situaciji v operativnih scenarijih. Te izdelke in sisteme podpira brezkompromisna storitev, ki zagotavlja življensko dobo po vsem svetu. Terensko preizkušeni izdelki podjetja predstavljajo najnovejše inovacije na trgu na področjih varnih komunikacij, strateške in taktične signale inteligence, zaupanja vredne IT varnosti in analize omrežij ter varnostnega skeniranja.

The trusted communications and intelligence solutions provided by Rohde & Schwarz enable informational superiority and ensure situational awareness in operational scenarios. These products and systems are supported by an uncompromised service that ensures lifecycle support around the globe. The company's field-proven solutions represent the market's latest innovations in the fields of secure communications, strategic and tactical signal intelligence, trusted IT security and cellular network analysis, as well as security scanning.

## RT-TRI, D.O.O.

Dvorana C 15 / Hall C 15

www.rt-tri.si  
Borovec 31, 1236 Trzin  
Slovenija / Slovenia

Podjetje RT-TRI, d.o.o. je na slovenskem trgu prisotno skoraj 30 let. Na trgu zastopamo blagovne znamke vrhunske prepoznavnosti in kvalitete ter svetovnega renomeja. Izdelki, ki jih tržimo so močno povezani s specialnimi poklici, taktičnimi poklici in aktivnostmi za najzahtevnejše uporabnike. Najbolj smo poznani kot specialisti za svetilke vseh vrst in namembnosti, kjer lahko svetujemo in ponudimo najboljši produkt za potrebe naročnika. Sledimo trendom in razvoju in smo najbolj renomirani in kompetentni partner za prenosne svetilke v državi. Na sejmu SIDEC 2025 bomo predstavili novosti največjega svetovnega proizvajalca svetilk Ledlenser. Predstavili bomo popolnoma novo »P« serijo svetilk, serijo 90° svetilk AteX

The company RT-TRI, d.o.o. has been present on the Slovenian market for almost 30 years. We represent brands of top recognition and quality and world renown on the market. The products we market are strongly connected to special professions, tactical professions and activities for the most demanding users. We are best known as specialists in lamps of all types and purposes, where we can advise and offer the best product for the client's needs. By following trends and developments, we have become the most renowned and competent partner for portable flashlights in the country. At the SIDEC 2025 fair, we will present the novelties of the world's largest manufacturer of lamps, Ledlenser. We will present the completely new "P"

flaškah in hladilnih torbah za različne namene uporabe, bomo predstavili modele termo steklenic in posod za hrano, ki so namenjene zahtevnejšim uporabnikom. Kot novost bomo predstavili tudi prenosno elektronsko zaščito pred mrčesjem in komarji, ki je hkrati tudi svetovna novost in ščiti uporabnike pred nadležnimi komarji na terenu ali v zaprtih prostorih brez priklopa na el. omrežje. (Ex) - eksplozijsko varnih ter ekstremni reflektor za iskanje XP30. Tehnološko so to najboljše in najbolj razvite svetilke na tržišču. Iz programa multitools (multi funkcionalnih orodij) bomo predstavili izbrane taktične izdelke vodilnega svetovnega proizvajalca Leatherman in njihove najbolj uporabne modele za operativno-taktične uporabnike. Od proizvajalca Stanley – poznanega po termo steklenicah,

series of lamps, the series of 90° Atex (Ex) - explosion-proof lamps and the extreme XP30 searchlight. Technologically, these are the best and most developed lamps on the market. From the multitools program (multifunctional tools), we will present selected tactical products from the world's leading manufacturer Leatherman and their most useful models for operational-tactical users. From the manufacturer Stanley - known for its thermos bottles, flasks and cooler bags for various purposes, we will present models of thermos bottles and food containers intended for more demanding users. As a novelty, we will also present portable electronic protection against insects and mosquitoes, which is also a world novelty and protects users from annoying mosquitoes in the field or indoors without connecting to the electric network.

NOVA DIMENZIJA BIVANJA IN OSEBNE VARNOSTI UnderPearl, popolnoma prilagodljiva hibridna stavba z ničelno porabo energije, ki brezhibno združuje visokotehnološko varnost z udobjem vsakdanjega življenja. Zasnovali smo jo tako, da postavlja nove standarde na področju osebne zaščite ter zagotavlja najboljše življenjske pogoje tako v mirnem času, kot vseh izrednih razmerah.

A NEW DIMENSION OF LIVING AND PERSONAL SAFETY UnderPearl, a fully flexible hybrid building with zero energy consumption, seamlessly combining high-tech security with the comfort of everyday life. We designed it to set new standards in the field of personal protection and ensure the best living conditions both in peacetime and in all emergency situations.

## Predstavitev razstavljalcev po abecednem vrstnem redu Presentation of Exhibitors in alphabetical order

- Avtonomija vesoljske postaje
- Odpornost na eksplozije in sevanje
- Odpornost na naravne katastrofe
- Certificirana proizvodnja
- Diskretna vgradnja
- Možnost modularne razširitve
- 

VELIKO VEČ KOT LE DODATEN PROSTOR  
Zasebni (RBK) bunker UnderPearl vam zagotavlja, da ste vedno pripravljeni na nepredvidene situacije. Zagotavlja vam vsakodnevno varno zavetišče, kjer boste vi, vaša družina in vaše dragocenosti popolnoma zaščiteni tudi v primeru resnih kriz.

- Space station autonomy
- Explosion and radiation resistance
- Natural disaster resistance
- Certified production
- Discreet installation
- Modular expansion option
- 

MUCH MORE THAN JUST ADDITIONAL SPACE  
The UnderPearl private (RBK) bunker ensures that you are always prepared for unforeseen situations. It provides you with a safe shelter every day, where you, your family and your valuables will be fully protected even in the event of serious crises.

### SCOTTY GROUP AUSTRIA GMBH

Dvorana K 35 / Hall K 35

[www.scotty.group](http://www.scotty.group)  
Teslastraße 4, 8074 Raaba-Grambach  
Avstrija / Austria

SCOTTY je avstrijsko podjetje, ki ponuja rešitve za kopensko mobilno, pomorsko in letalsko komunikacijo za varnostno kritične aplikacije.

SCOTTY ima dolgoletne izkušnje z razvojem in proizvodnjo prilagojenih sistemov, ki zagotavljajo zanesljiv prenos podatkov in povezljivost tudi na oddaljenih območjih. Zahvaljujoč temu strokovnemu znanju se podjetje specializira za razvoj, prilagajanje in optimizacijo kompleksnih komunikacijskih infrastruktur na področju programske, strojne in omrežne tehnologije.

Te rešitve prispevajo k skupnemu zavedanju o situaciji z visoko zanesljivo, izvorno in večpredstavnostno izmenjavo informacij, ki temelji na odpornih radijskih in satelitskih omrežjih.

Civilne in vojaške organizacije po vsem svetu se zanašajo na tehnologije SCOTTY za komunikacijo kadar koli, kjer koli in v vseh okoliščinah.

SCOTTY is an Austrian company that realises land mobile, maritime and aeronautical communication solutions for safety-critical applications.

SCOTTY has many years of experience in the development and production of customised systems that guarantee reliable data transmission and connectivity even in remote areas. Thanks to this expertise, the company specialises in developing, adapting and optimising complex communication infrastructures in the areas of software, hardware and network technology.

These solutions contribute to shared situational awareness through highly reliable, native and multimedia information exchange based on resilient radio and satellite networks.

Civilian and military organisations around the world rely on SCOTTY technologies to communicate anytime, anywhere and under any circumstances.

1/9A, Üst Zemin Kat D:104-105 Pendik, 34906 İstanbul  
Turčija / Turkey

SAHA İstanbul, ustanovljena za izboljšanje tehnoloških in sektorskih zmogljivosti svojih članov, si prizadeva povečati lokalizacijo, pridobiti kritične tehnologije in okrepiti globalno konkurenčnost Turčije v obrambnem in vesoljskem sektorju. Kot najpomembnejši industrijski grozd v Turčiji in Evropi združuje več kot 1300 članov iz 49 mest, vključno s 30 univerzami in ključnimi akterji, kot so ASELSAN, Military Shipyards and Factories, Baykar, MKE, Roketsan, STM in TUSAŞ. SAHA İstanbul igra ključno vlogo pri spodbujanju turških zmogljivosti za tehnološki razvoj. V skladu z nacionalnim ciljem zmanjšanja odvisnosti od tujine in povečanja izvoza v obrambi in vesoljski industriji ne le obravnava turške domače obrambne potrebe, temveč prispeva tudi k razvoju prilagojenih tehnologij za zavezniške države.

SAHA İstanbul, established to enhance its members' technological and sectoral capabilities, aims to increase localisation, acquire critical technologies, and strengthen Türkiye's global competitiveness in the defence and aerospace sector. As the most significant industrial cluster in Türkiye and Europe, it brings together over 1,300 members from 49 cities, including 30 universities and key players such as ASELSAN, Military Shipyards and Factories, Baykar, MKE, Roketsan, STM, and TUSAŞ. SAHA İstanbul plays a vital role in advancing Türkiye's technology development capacity. In line with the national goal of reducing foreign dependency and boosting exports in defence and aerospace, it not only addresses Türkiye's domestic defence needs but also contributes to the development of customised technologies for allied countries.

## SARSILMAZ SİLAH SANAYİ A.Ş.

Dvorana K 23 / Hall K 23

## SEKCIJA ZA KIBERNETSKO VARNOST PRI ZDRUŽENJU ZA INFORMACIJSKE IN TELEKOMUNIKACIJSKE TEHNOLOGIJE

Dvorana D 1 / Hall D 1

[www.gzs.si/sekv](http://www.gzs.si/sekv)

Dimičeva ulica 13, 1000 Ljubljana  
Slovenija / Slovenia

Sekcija kibernetске varnosti z aktivnim sodelovanjem z vsemi ključnimi deležniki na področju kibernetске varnosti v Republiki Sloveniji spodbuja razvoj kibernetских zmogljivosti slovenskih podjetij, ponudnikov in uporabnikov storitev ter pomembno prispeva k celostnemu razvoju nacionalne kibernetске varnosti.

The Cybersecurity Section, through active cooperation with all key stakeholders in the field of cybersecurity in the Republic of Slovenia, promotes the development of cybersecurity capabilities among Slovenian companies, service providers, and users, and makes a significant contribution to the comprehensive advancement of national cybersecurity.

## **ACTUAL I.T. D.D.**

Dvorana D 1 / Hall D 1

[www.actual-it.si](http://www.actual-it.si)  
Ferrarska ulica 14, 6000 Koper  
Slovenija / Slovenia

ACTUAL I.T. je specializirano podjetje za sistemsko integracijo ter digitalizacijo procesov v transportu, logistiki, pristaniških sistemih ter na področju rešitev kibernetike, informacijske varnosti in skladnosti. Z več kot 30-letno tradicijo in lastno razvitimi IT rešitvami podjetjem omogoča večjo učinkovitost, sledljivost in povezljivost poslovnih procesov v nazahtevnejših okoljih. Ob tem ponuja tudi napredne AI rešitve, ki optimizirajo delovanje, zagotavljajo skladnost z regulativami in omogočajo varno vključevanje umetne inteligence v vsakodnevno poslovanje.

ACTUAL I.T. is a company that specializes in system integration and process digitization in transportation, logistics, port systems, and cyber, information security, and compliance solutions. With more than 30 years of tradition and proprietary IT solutions, it enables companies to achieve greater efficiency, traceability, and connectivity of business processes in the most demanding environments. It also offers advanced AI solutions that optimize operations, ensure regulatory compliance, and enable the secure integration of artificial intelligence into everyday business.

## **CREAPLUS LTD**

Dvorana D 1 / Hall D 1

[creaplus.com](http://creaplus.com)  
Letališka cesta 33f, 1000 Ljubljana  
Slovenija / Slovenia

Podjetje CREAPLUS, ustanovljeno leta 2010, je ponudnik naprednih rešitev na področju umetne inteligence, kibernetike varnosti, kriptografije in razvoja programske opreme po meri. S sedežem v Ljubljani sodeluje z vodilnimi podjetji v Sloveniji in CEE regiji, zlasti v panogah, kot so bančništvo, kritična infrastruktura, farmacija, zavarovalništvo in telekomunikacije. CREAPLUS ekipa, ki šteje več kot 40 strokovnjakov, je uspešno izvedla preko 100 projektov, kar potrjuje njihovo zanesljivost in strokovnost. CREAPLUS ponuja širok spekter storitev, vključno z napredno kibernetiko varnostjo, upravljanimi varnostnimi storitvami (MSSP), kriptografijo, razvojem razločljive in generativne umetne inteligence, podatkovno znanostjo, analitiko in razvojem programske opreme po meri. Poleg tega zagotavlja usposabljanja za krepitev IT varnosti v organizacijah. Podjetje je ponosno na certifikate ISO/IEC 27001, ISO 9001, Cyber Essentials Plus in bonitetno odličnost, njegovi strokovnjaki pa imajo prestižne certifikate, kot so CISSP, CISA, CISM in Azure Solutions Architect Expert ter druge.

Established in 2010, CREAPLUS is a leading provider of advanced solutions in artificial intelligence, cybersecurity, cryptography, and custom software development. Headquartered in Ljubljana, it collaborates with top companies in Slovenia and the CEE region, particularly in sectors such as banking, critical infrastructure, pharmaceuticals, insurance, and telecommunications. The CREAPLUS team, consisting of over 40 experts, has successfully completed more than 100 projects, demonstrating its reliability and expertise. CREAPLUS offers a wide range of services, including advanced cybersecurity, managed security services (MSSP), cryptography, development of explainable and generative artificial intelligence, data science, analytics, and custom software development. Additionally, it provides training to enhance IT security within organizations. The company takes pride in holding ISO/IEC 27001, ISO 9001, Cyber Essentials Plus, and credit rating excellence certifications, while its experts possess prestigious certifications such as CISSP, CISA, CISM, Azure Solutions Architect Expert, and others.

## SIQ (SLOVENIAN INSTITUTE FOR QUALITY AND METROLOGY)

Dvorana D 1 / Hall D 1

[www.siq.si](http://www.siq.si)

Mašera-Spasićeva ulica 10, 1000 Ljubljana  
Slovenija / Slovenia

SIQ Ljubljana je mednarodna, profesionalna, neodvisna, nepristranska in neprofitna institucija, ki nudi celovite storitve na področju certificiranja, inšpekcijskih pregledov, testiranja, kalibracije, validacije, preverjanja in usposabljanja. Smo priglasi organ za 7 direktiv in 2 uredbi ter akreditirani za več kot 500 standardov. S 184 zaposlenimi in 350 zunanjimi strokovnjaki nudimo storitve v različnih panogah. Izvajamo revizije in certificiranje sistemov vodenja v skladu s standardi ISO in AQAP ter kalibriramo merilno opremo – od tehtnic do visokofrekvenčnih naprav. Ponujamo storitve kibernetne varnosti (penetracijsko testiranje, revizije, varnost IoT naprav) in preverjamo opremo, namenjeno eksplozivnim okoljem, v skladu s predpisi EU. Naše delo je podprto s številnimi mednarodnimi akreditacijami in članstvi.

SIQ Ljubljana is an international, professional, independent, impartial, and non-profit institution that provides comprehensive services in certification, inspection, testing, calibration, validation, verification, and training. We are a notified body for 7 directives and 2 regulations and are accredited for over 500 standards. With 184 employees and 350 external experts, we provide services across various industries. We conduct audits and certifications of management systems according to ISO and AQAP standards, and we calibrate measuring equipment—from scales to high-frequency devices. We offer cybersecurity services (penetration testing, audits, IoT device security) and verify equipment intended for explosive environments in compliance with EU regulations. Our work is backed by numerous international accreditations and memberships.

## SMART COM D.O.O.

Dvorana D 1 / Hall D 1

[www.smart-com.si](http://www.smart-com.si)

Brnčičeva ulica 45, 1231 Ljubljana-Črnuče

## **SOLLSTAR**

Dvorana K 14 / Hall K 14

[www.sollstar.com](http://www.sollstar.com)  
Mestne Njive 23, 8000 Novo mesto  
Slovenija / [Slovenia](#)

Sollstar je registrirana blagovna znamka podjetja A-Star in predstavlja inovacije, tehnologijo in končne izdelke, ki jih razvijamo skupaj s slovenskimi partnerji. Odlikuje ga dolgoletna tradicija in izkušnje, kar se kaže v visokokakovostnih, trajnostnih in naprednih tehnoloških rešitvah. Pod blagovno znamko Sollstar smo združili slovensko inženirsko znanje, izkušnje in naše poznavanje proizvodnih procesov visokokakovostnih izdelkov. Tehnološko in energetsko trajnostne rešitve, združene v namenski omari Sollstar z najnaprednejšim sistemom sušenja, poleg osnovne funkcije shranjevanja ponujajo tudi tehnologijo sušenja, odvajanje vlage in edinstvene higienske rešitve. Omarice Sollstar na trajnosten način, z nizko porabo energije, preprečujejo nastanek plesni, mikrobov, bakterij in drugih škodljivih dejavnikov, ki uničujejo dragoceno opremo, prostore ter zdravje zaposlenih in uporabnikov. Rešitve, združene v izdelkih Sollstar, so programske vodene s pametnimi aplikacijami in lahko delujejo posamezno ali kot centralno upravljani sistemi. Gre za avtonomne rešitve, ki uporabniku omogočajo udobno upravljanje, brezskrbno uporabo in nadzor nad delovanjem.

Sollstar is a registered trademark of A-Star company and represents innovations, technology and end products that we develop together with Slovenian partners. It is distinguished by its long tradition and experience, which is reflected in high-quality, sustainable and advanced technological solutions. Under the Sollstar brand, we have combined Slovenian engineering knowledge, experience and knowledge of production processes of high-quality products. Technologically and energy-sustainable solutions, combined in a dedicated Sollstar cabinet with the most advanced drying system, in addition to basic storage functions, also offer drying technology, moisture removal and unique hygiene solutions. Sollstar cabinets prevent the formation of mold, microbes, bacteria and other harmful factors that destroy valuable equipment, space and the health of employees and users in a sustainable way, with low energy consumption. Solutions combined in Sollstar products are software-controlled with smart applications and can operate individually or as centrally managed systems. These are autonomous solutions that the user needs for comfortable management, carefree use and control over operation.

## **S-TMM SISTEMI D.O.O.**

## AIONEYE D.O.O.

Dvorana C 9 / Hall C 9

aioneeye.com

Ulica Jožeta Jame 14, 1210 Ljubljana - Šentvid  
Slovenija / Slovenia

Naše mlado visokotehnološko podjetje je specializirano za razvoj avtonomnih robotskih rešitev in pametnih platform, ki združujejo elektroniko, mehaniko, robotiko ter umetno inteligenco. V ospredju našega delovanja je ustvarjanje rešitev, ki zmanjšujejo fizično obremenitev ljudi, povečujejo produktivnost ter hkrati izboljšujejo varnost pri delu v zahtevnih okoljih. Ekipo sestavljajo izkušeni inženirji s področja elektronike, mehatronike in programske opreme, ki so v preteklosti uspešno razvili napredne sisteme za industrijo, kmetijstvo in medicino. Naša glavna inovacija AgriPal je robustna avtonomna platforma za prenašanje težkih bremen na zahtevnih zunanjih terenih. Vozilo s pogonom na vsa štiri kolesa lahko samodejno sledi operaterju (do 6 km/h) ali pa se usmeri na določeno lokacijo. Opremljeno je s kombinacijo senzorjev (kamera, radar, inercialni senzorji in visokonatančni GPS), ki omogočajo varno in zanesljivo navigacijo. Ključna prednost je integrirana nalagalno-razkladalna enota, ki dodatno razbremeni uporabnike ter poveča učinkovitost. AgriPal je zasnovan modularno, zato je primeren za civilno uporabo (kmetijstvo, gradbeništvo, industrijo), hkrati pa ima jasne aplikacije v obrambnem in varnostnem sektorju. Na terenu lahko podpira logistične naloge, zmanjša potrebo po fizičnem delu vojakov ter krepi operativno odpornost. Modularna zasnova omogoča tudi prihodnje nadgradnje z dodatnimi senzorji ali specializiranimi moduli, kar še razširi področja uporabe. Na dogodku predstavljamo prototip platforme AgriPal. Obiskovalci bodo spoznali, kako naša rešitev zmanjšuje pomanjkanje delovne sile v civilnih sektorjih in hkrati prispeva k večji učinkovitosti in varnosti v vojaških okoljih.

Our young high-tech startup company specializes in the development of autonomous robotic solutions and smart platforms that combine electronics, mechanics, robotics, and artificial intelligence. At the core of our work is the creation of solutions that reduce physical workload, increase productivity, and at the same time improve safety in demanding environments. The team is composed of experienced engineers in electronics, mechatronics, and software, who have successfully developed advanced systems for industry, agriculture, and medicine in the past. Our main innovation, AgriPal, is a robust autonomous platform for transporting heavy loads across challenging outdoor environments. The four-wheel drive vehicle can autonomously follow an operator (up to 6 km/h) or navigate to a designated location. It is equipped with a combination of sensors (camera, radar, inertial sensors, and high-precision GPS) that ensure safe and reliable navigation. A key advantage is the integrated loading and unloading unit, which reduces workload for users and increases efficiency. AgriPal is designed as a modular platform, making it suitable for civil applications (agriculture, construction, industry), while also offering clear use cases in the defense and security sector. In the field, it can support logistical tasks, reduce the need for physical labor by soldiers, and increase operational resilience. The modular design also enables future upgrades with additional sensors or specialized modules, further expanding its areas of use. At the event, we are presenting the prototype of the AgriPal platform. Visitors will see how our solution addresses labor shortages in civil sectors while also increasing efficiency and safety in military environments.

## CENTRUM COGNITIO D.O.O.

Dvorana C 9 / Hall C 9

lev-mentor.com

Šarhova 34, 2000 Maribor  
Slovenija / Slovenia

Ime rešitve: Agentni multimodalni sistem za hitro psihološko podporo in ohranjanje kognitivne odpornosti Gre za napreden sistem umetne inteligence, ki preko govora, tona glasu, obrazne mimike, drže telesa in podatkov iz nosljivih naprav (npr. srčni utrip, GSR) prepoznava psihološko obremenjenost in kognitivno preobremenitev posameznika. Sistem nato samoiniciativno sproži personalizirane mikrointervencije – npr. pomiritvene tehnike, pogovor z AI svetovalcem ali predlog stika s strokovnjakom

Solution name: Agent-based multimodal system for rapid psychological support and maintaining cognitive resilience It is an advanced artificial intelligence system that, through speech, tone of voice, facial expressions, body posture and data from wearable devices (e.g. heart rate, GSR), recognizes the psychological stress and cognitive overload of an individual. The system then self-initiates personalized micro-interventions – e.g. calming techniques, a conversation with an AI advisor or a suggestion to contact an expert

## Predstavitev razstavljalcev po abecednem vrstnem redu Presentation of Exhibitors in alphabetical order

– in to v trenutkih, ko je uporabnik mentalno dostopen (npr. po misiji, po stresnem dogodku, po koncu izmene). Tehnologija ima jasno dvojno rabo: v civilnem sektorju pomaža vodjem timov, zdravstvenim delavcem, socialnim delavcem in drugim poklicem, ki delujejo pod pritiskom; v obrambnem in varnostnem okolju pa omogoča zgodnje zaznavanje psihološke obremenitve ter prispeva k ohranjanju operativne pripravljenosti.

– at moments when the user is mentally accessible (e.g. after a mission, after a stressful event, after the end of a shift).

The technology has a clear dual use: in the civilian sector, it helps team leaders, healthcare workers, social workers and other professions that work under pressure; in the defense and security environment, it enables early detection of psychological stress and contributes to maintaining operational readiness.

### **EJET D.O.O.**

Dvorana C 9 / Hall C 9

[ejet.co](http://ejet.co)

Mokrška ulica 16/c, 1000 Ljubljana  
Slovenija / [Slovenia](#)

EJET prinaša novo dimenzijo v svet navtike s popolnoma električnimi čolni na jet pogon, ki združujejo vrhunsko zmogljivost, trajnost in eleganco. Z lastnim razvojem, lahko konstrukcijo in naprednim pogonskim sistemom EJET zagotavlja močno, učinkovito in tiho izkušnjo na vodi.

EJET is redefining boating with fully electric jet rib boats that combine cutting-edge performance, sustainability, and elegant design. Developed entirely in-house, EJET's lightweight construction and proprietary propulsion system deliver powerful, efficient, and silent rides.

### **FLAI D.O.O.**

Dvorana C 9 / Hall C 9

[www.flai.ai](http://www.flai.ai)

Bravničarjeva ulica 13, 1000 Ljubljana

Flai je vodilno podjetje na področju razvoja algoritmov umetne inteligence in strojnega učenja za obdelavo LiDAR in slikovnih podatkov. Naša platforma pretvarja surove podatke v natančne 3D zemljevide, kar omogoča napredno analizo terena, ter nadzor in spremljanje kritične infrastrukture v skoraj realnem času. Z avtomatizacijo zahtevnih klasifikacijskih nalog Flai omogoča takojšnje pridobivanje ključnih informacij, s čimer izboljšuje načrtovanje misij, odzivanje na nesreče in taktične operacije. Naša platforma je zasnovana za nenehno učenje in prilagajanje. Edinstvena sposobnost hitrega ponovnega učenja z minimalnim vnosom podatkov in brez potrebe po globokem strokovnem znanju zagotavlja hitre in samozavestne odločitve v dinamičnih in nepredvidljivih okoljih.

Flai is a leading company in the development of artificial intelligence and machine learning algorithms for processing LiDAR and imaging data. Our platform transforms raw data into accurate 3D maps, enabling advanced terrain analysis, and near-real-time surveillance and monitoring of critical infrastructure. By automating complex classification tasks, Flai enables immediate retrieval of critical information, improving mission planning, disaster response, and tactical operations. Our platform is designed to continuously learn and adapt. The unique ability to rapidly relearn with minimal data input and without the need for deep expertise ensures fast and confident decisions in dynamic and unpredictable environments.

## LYNXCRAFT

Dvorana C 9 / Hall C 9

[www.lynx-craft.com](http://www.lynx-craft.com)

Dolinarjeva 3a, 1000 Ljubljana  
Slovenija / Slovenia

LynxCraft je celovita digitalna platforma za gradnjo stavb, ki s pomočjo patentirane algoritmične tehnologije omogoča izjemno hitro, stroškovno učinkovito in transparentno gradnjo hiš in večstanovanjskih objektov. Platforma avtomatizira vse faze gradbenega procesa – od zasnove in projektiranja do dovoljenj, izbire dobaviteljev ter izvedbe – in s tem drastično skrajša čas izvedbe in zmanjša stroške, obenem pa omogoča visoko stopnjo prilagodljivosti končnega objekta. Podprta z oblakom in povezano s certificirano mrežo partnerjev, LynxCraft na novo definira gradnjo kot proces množične proizvodnje.

LynxCraft is a comprehensive digital building construction platform that uses patented algorithmic technology to enable extremely fast, cost-effective and transparent construction of houses and multi-family buildings. The platform automates all phases of the construction process – from design and engineering to permits, supplier selection and construction – thereby drastically reducing construction time and costs, while enabling a high level of customization of the final building. Supported by the cloud and connected to a certified network of partners, LynxCraft redefines construction as a mass production process.

Next generation electric outboards; compact, easy to use and sturdy.

## TRIGXSTER

Dvorana C 9 / Hall C 9

www.trigxster.com  
Njegoševa ulica 12, 3000 Celje  
Slovenija / Slovenia

TRIGXSTER aktivni sprožilec je ergonomski sprožilni mehanizem, ki izniči naravno, a nezaželeno stransko gibanje prsta in s tem stabilizira orožje med pritiskom na sprožilec. Povečuje stabilnost, izboljšuje ponovljivost zadetkov in je primeren tako za nova kot za obstoječa orožja, ne da bi spreminjal njihovo osnovno funkcijo. Z univerzalno uporabo pri ročnih platformah je TRIGXSTER aktivni sprožilec preprosta in zanesljiva nadgradnja za strelce, ki cenijo natančnost. se lahko na vseh tipih ročnega orožja, tudi naorožju, ki je že v uporabi.

The TRIGXSTER Active Trigger is an ergonomic trigger module that neutralises the natural but unwanted side movement of the finger, enabling a smoother, parallel to bore axis trigger pull. It improves stability of the firearm during the firing phase, enhances shot consistency, and can be integrated into both new and existing firearms without altering their core function. Designed for universal use across hand-held platforms, the TRIGXSTER Active Trigger offers a simple and reliable upgrade for shooters who value precision.

## STRIX EMOTORS

Dvorana K 37 / Hall K 37

www.strix-evolution.com  
Miklavška cesta 64, 2311 Hoče  
Slovenija / Slovenia

STRiX eMotors je proizvajalec električnih enduro motorjev, zasnovanih za vojaško rabo. Na sejmu SIDEC bomo predstavili nov serijski model, ki je bolj robusten ter prilagojen uporabi na terenu in misijah. Predstavili bomo tudi dodatne možnosti nadgradnje motorja, kot so nosilci za opremo, taktične torbe in IR-luč. Poleg motorja bomo predstavili še druge prihajajoče projekte ter zmožnosti podjetja STRiX.

STRiX eMotors is a manufacturer of electric enduro motorcycles designed for military use. During the SIDEC fair, we will present a new production model that is more robust and adapted to field and mission use, we will also present additional options for upgrading the motorcycle, such as equipment racks, tactical motorcycle bags, IR light. In addition to the motorcycle, we will present other upcoming projects and capabilities of the STRiX company.

## ŠESTAN-BUSCH D.O.O. PRELOG, CROATIA

Dvorana K 18 / Hall K 18

www.sestan-busch.hr  
Industrijska zona 3, 40323 Prelog  
Hrvaška / Croatia

Podjetje ŠESTAN-BUSCH d.o.o. PRELOG že 30 let uspešno deluje v proizvodnji protibalističnih bojnih čelad. V 30 letih proizvodnje je podjetje ŠESTAN-BUSCH d.o.o. PRELOG razvilo približno 45 različnih tipov bojnih čelad. Podjetje svoje izdelke dobavlja v približno 70 držav sveta oziroma na 5 celin oziroma izvozi 98 % celotne proizvodnje.

The company ŠESTAN-BUSCH d.o.o. PRELOG has been successfully operating in the production of anti-ballistic combat helmets for 30 years. In 30 years of production, the company ŠESTAN-BUSCH d.o.o. PRELOG has developed about 45 different types of combat helmets. The company delivers its products to about 70

Na področju vojaške opreme deluje v proizvodnji opreme za balistično zaščito, opreme za biološko in kemično zaščito ter proizvodnji plastičnih delov za minsko-eksplozivne naprave, pa tudi številnih drugih izdelkov.

countries around the world, or 5 continents, or exports 98% of its total production. In the field of military equipment, it operates in the production of ballistic protection equipment, biological and chemical protection equipment, and the production of plastic parts for mine explosive devices, as well as a number of other products.

## TECES / SIENE

Dvorana D 17 / Hall D 17

[www.teces.si](http://www.teces.si)

Pobreška cesta 20, 2000 Maribor  
Slovenija / [Slovenia](#)

TECES je mednarodno prepoznan inovacijski grozd zelenih tehnologij in energetske učinkovitih rešitev. Je nosilec in koordinator nacionalnih in mednarodnih razvojnih strateških projektov in partnerstev na civilnem in obrambnem področju. Na obrambnem področju TECES tesno sodeluje z Ministrstvom za obrambo RS (MORS) ter povezuje slovenska deležnike v globalne obrambne verige vrednosti. Kot zanesljiv partner in koordinator velikih mednarodnih konzorcijev je TECES uspešno sodeloval in še vedno dejavno sodeluje v ključnih strateških projektih Evropskega obrambnega sklada (EDF). Dejavno deluje tudi v pobudah in programih pod okriljem Evropske obrambne agencije (EDA), usmerjenih v energetske in okoljske izzive v evropske obrambe.

TECES is a leading Slovenian innovation cluster internationally recognised for its expertise in strategic partnerships and projects in green and energy-efficient solutions for both civil and defence sectors. In defence, TECES works closely with the Slovenian Ministry of Defence (SiMoD), integrating national stakeholders into global defence value chains. As a trusted partner and coordinator of large multinational consortia, TECES has successfully contributed to and remains actively involved in several EDF projects, while also participating in European Defence Agency (EDA) programmes and initiatives addressing energy and environmental challenges in European defence.

## CYBER SYSTEMS, INFORMACIJSKE IN VARNOSTNE REŠITVE, D.O.O.

Dvorana D 17 / Hall D 17

[www.cybersystems.si](http://www.cybersystems.si)

Vojkova cesta 63, 1000 Ljubljana  
Slovenija / [Slovenia](#)

Cyber Systems ponuja specializirana orodja za zaznavanje, opazovanje in modeliranje kibernetških groženj ter pridobivanje obveščevalnih podatkov v kibernetškem prostoru (angl. cyber threat intelligence). Ukvarja se z razvojem namenskih kibernetških vab (npr. tehnologije zavajanja, digitalni dvojčki) s poudarkom na kritični infrastrukturi in domensko-specifičnih senzorjev za zaznavo napadov in identifikacijo tehnik, taktik in procedur napadalcev.

Cyber Systems offers specialized solutions for detection, monitoring, and modeling of cyber threats and gathering cyber threat intelligence. The company offers tailored cyber deception technologies (e.g., honeypots, digital twins), particularly for the critical infrastructure sector, and domain-specific sensors for attack detection and the identification of adversarial tactics, techniques, and procedures.

## INŠTITUT ZA OKOLJEVARSTVO IN SENZORJE D.O.O.

Dvorana D 17 / Hall D 17

[www.ios.si](http://www.ios.si)  
Beloruska ulica 7, 2000 Maribor  
Slovenija / Slovenia

IOS d.o.o. je slovensko podjetje, specializirano za recikliranje odpadkov, čiščenje odpadnih vod, funkcionalizacijo nanomaterialov ter razvoj naprednih senzorskih rešitev. Podjetje ima bogate izkušnje z nacionalnimi in evropskimi raziskovalno-razvojnimi programi, vključno s programi Horizon, EIC in EDA. IOS razpolaga s štirimi sodobno opremljenimi laboratoriji ter edinstvenim demonstracijskim centrom za reciklažo zunaj sedeža podjetja. Njihovo delo je usmerjeno v pridobivanje visokokakovostnih sekundarnih surovin iz odpadne plastike in tekstila, razvoj naprednih rešitev za čiščenje odpadnih vod ter inovativnih senzorjev.

IOS d.o.o. is a Slovenian SME based in Maribor. It specialises in waste recycling, wastewater treatment, nanomaterials functionalisation, and advanced sensor technologies. With extensive experience in national and European R&D programmes, including Horizon, EIC, and EDA, IOS operates four state-of-the-art laboratories and a unique off-site recycling demonstration complex. The company is dedicated to producing high-quality secondary raw materials from waste plastics and textiles, developing advanced wastewater treatment systems, and creating innovative sensor solutions.

## INTERNET INSTITUTE

Dvorana D 17 / Hall D 17

[www.iinstitute.eu](http://www.iinstitute.eu)  
Črna vas 128, 1000 Ljubljana  
Slovenija / Slovenia

INTERNET INSTITUT d.o.o. je specializirano za rešitve 5G namenjene za kritične sektorje, kot so pristanišča, PPDR, Industrija 4.0, kritične komunikacije in druge vertikale, ki zahtevajo zanesljive in odporne komunikacijske rešitve. Njihova strokovnost vključuje načrtovanje in postavitev rešitev 5G, testiranje sistemov, primerjalno analizo in zagotavljanje kakovosti, skupaj z uvajanjem in upravljanjem robustne infrastrukture 5G.

INTERNET INSTITUTE Ltd. specializes in 5G solutions for diverse sectors like ports, Industry 4.0, critical communications, and other verticals requiring reliable and resilient connectivity. Their expertise includes 5G solutions design, system testing, benchmarking, and quality assurance, alongside deployment and operation of robust 4G/5G infrastructures.

## KOLEKTOR SISTEH D.O.O.

Dvorana D 17 / Hall D 17

[www.kolektorsisteh.si](http://www.kolektorsisteh.si)  
Zasavska cesta 95, 1231 Ljubljana-Črnuče  
Slovenija / Slovenia

Podjetje Kolektor Sisteh je vodilni slovenski ponudnik tehnoloških rešitev za področje avtomatizacije, oskrbe z električno energijo ter obdelave in upravljanja z vodami. Z vrhunsko opremo, naprednimi tehnologijami vodenja in inovativnimi tehnološkimi rešitvami izboljšujejo procese poslovnih partnerjev v industriji, infrastrukturi in energetiki. Z močno razvojno in izvedbeno ekipo visoko usposobljenih zaposlenih so v zadnjih 30 letih uspešno realizirali že več kot 5000 projektov doma in v tujini.

Kolektor Sisteh is the leading Slovenian provider of technological solutions in the field of automation, LV power supply and water treatment technologies. With state-of-the-art equipment, advanced control systems technologies and innovative technological solutions, they improve the processes of business partners in industry, energy and infrastructure. With a strong development and implementation team they have successfully completed over 5000 projects in the past 30 years in Slovenia and abroad.

## REM D.O.O.

Dvorana D 17 / Hall D 17

[www.rem.si](http://www.rem.si)

Industrijska ulica 3, 8210 Trebnje  
Slovenija / Slovenia

REM d.o.o. slovensko podjetje, ki ima pomembno vlogo v evropskem prostoru in širše na področju proizvodnje zahtevnejših modularnih montažnih objektov. Podjetje je specializirano za celovite rešitve, ki vključujejo projektiranje, izdelavo, montažo ter inženiring modularnih objektov, namenjenih različnim uporabam. S poudarkom na kakovosti, prilagodljivosti in inovativnosti REM d.o.o. uspešno uresničuje projekte po meri naročnikov v različnih industrijskih, poslovnih in bivalnih segmentih.

REM d.o.o. is a medium-sized Slovenian company with a significant role in the European and broader markets of advanced modular prefabricated buildings. The company specialises in designing, producing, assembling, and engineering complex modular structures tailored to specific client needs. With a strong emphasis on quality, adaptability, and innovation, REM d.o.o. delivers turnkey modular solutions for diverse applications across industrial, commercial, and residential sectors.

## ROBOTINA, PODJETJE ZA INŽENIRING, MARKETING, TRGOVINO IN PROIZVODNJO D.O.O.

Dvorana D 17 / Hall D 17

[www.robotina.si](http://www.robotina.si)

OIC- Hrpelje 38, 6240 Kozina  
Slovenija / Slovenia

Robotina d.o.o. je slovensko je visokotehnološko podjetje, ustanovljeno leta 1990, ki se je uveljavilo na področju pametnih IoT rešitev, komponent in platform za povezano družbo prihodnosti. S širokim strokovnim znanjem s področja integracije sistemov je podjetje razvilo lastne krmilnike in digitalne storitve, ki temeljijo na kakovosti, učinkovitosti in napredni tehnologiji.

Robotina d.o.o. is a Slovenian high-tech company established in 1990, recognized as a leading provider of smart IoT solutions, components, and platforms for the connected society of the future. With extensive expertise in system integration, the company has developed its own controllers and digital services, with a strong focus on quality, efficiency, and advanced technology.

## SMARTIS, INFORMACIJSKI SISTEMI D.O.O.

Dvorana D 17 / Hall D 17

[www.smartis.si](http://www.smartis.si)

Ameriška ulica 8, 1000 Ljubljana  
Slovenija / Slovenia

Podjetje Smartis je ponudnik informacijskih rešitev in storitev, ki združuje kompetence na področjih systemske integracije, upravljanja sistemov, podatkov, informacij, kibernetske varnosti ter strateških sredstev in storitev. Ob tem nudi tudi storitve razvoja po meri in razvoj lastnih produktov za področje industrijskega IoT, pametnih mest in doma ter varstva osebnih podatkov.

Smartis is a leading provider of information solutions and services for various business sectors and the public sector. The company combines competences in system integration, systems management, data, information, cyber security, and strategic assets and services. In addition, it offers custom services development and the development of its own products in the fields of industrial IoT, smart cities, smart homes, and personal data protection.

## STUBELJ D.O.O.

Dvorana D 17 / Hall D 17

[www.stubelj.si](http://www.stubelj.si)

Anhovo 14, 5210 Deskle

## TRIMPEKS D.O.O.

Dvorana K 30 / Hall K 30

[www.trimpeks.si](http://www.trimpeks.si)

Partizanska cesta 6, 2000 Maribor  
Slovenija / Slovenia

Trimpeks d.o.o. je podjetje, specializirano za trgovino z blagom in storitvami za posebne namene za varnostno, obrambno in letalsko industrijo. Sodelujemo z uglednimi podjetji, ki želijo predstaviti svoje izdelke in storitve v Republiki Sloveniji in regiji Jugovzhodne Evrope. Naš cilj je predstaviti najboljše rešitve za obstoječe in prihodnje potrebe varnostnih in obrambnih služb in agencij. Prisotni smo v celotni EU in državah regije. Številne zadovoljne stranke potrjujejo kakovost naših storitev. Na podlagi več kot 30 let dela z vladnimi subjekti smo si pridobili bogate izkušnje v komercialnih dejavnostih, povezanih z modernizacijo in nadgradnjo programov obrambne in varnostne opreme za potrebe obrambnih struktur.

Trimpeks Ltd is a company specialized in trade of special purpose goods and services for the security, defense and aviation industry. We cooperate with the renowned companies which wish to present their products and services in the Republic of Slovenia and the SEE region. Our goal is to present best solutions for existing and future needs of the security and defense services and agencies. We are present in the whole EU and countries of the region. Many satisfied customers attest to the quality of our services. Based on more than 30 years of work with governmental entities, we gained extensive experience in commercial activities related to the modernization and upgrading of defense and security equipment programs for the needs of the defense structures.

## Predstavitev razstavljalcev po abecednem vrstnem redu Presentation of Exhibitors in alphabetical order

Vzpostavili smo razvejano mrežo dobaviteljev, serviserjev in vzdrževalcev različnih tipov letal, helikopterjev in dodatne opreme z vsega sveta. Na področju nacionalne varnosti je Trimpeks zanesljiv partner pri izvajanju vladnih pogodb in javnih naročil, kar dokazuje z opravljanjem storitev v številnih tujih državah. Podjetje izpolnjuje pričakovanja strank in izkazuje zavezanost kakovosti v skladu z zahtevami standarda ISO 9001. Skupaj z našimi partnerji imamo dolgoletne izkušnje z vzdrževanjem različnih letal, letalskih motorjev in komponent, dobavo rezervnih delov, kalibracijo in testiranjem. Podjetje Trimpeks d.o.o. je tudi prodajalec visokokakovostne opreme za razsvetljavo letališč za civilna in vojaška letališča ter heliporte. Prodajni program vključuje dvignjene in vgradne luči visoke, srednje in nizke intenzivnosti za osvetlitev vzletno-pristajalnih stez in voznih stez. Naš portfelj storitev vključuje tudi ZAŠČITO PRED DRONI, ki vključuje večsenzorski sistem, ki temelji na radarski tehnologiji, RF skenerje, kamere, nevtralizatorje, motilce in modul za prevzem dronov.

We have established a diverse network of suppliers, repairers and maintenance engineers of various types of aircrafts, helicopters and accessories from around the world. In the area of national security, Trimpeks is reliable partner in the implementation of government contracts and public procurement contracts and that is proven by performing services in many foreign countries. Company meets customer expectations and demonstrates commitment to quality according to ISO 9001 requirements. Together with our partners, we have many years of experience in maintenance of various aircrafts, aero engines and components, supply of spare parts, calibration and testing. Company Trimpeks Ltd. is also retailer of high quality airfield lighting equipment for civil and military airports, as well as heliports. Sales program includes elevated and inset lights of high, medium and low intensity, for lighting runways as well as taxiways. Our portfolio of services includes also COUNTER DRONE PROTECTION that includes multisensorsystem based on radar technologies, RF scanners, cameras, neutralizers, jammers and drone »take-over« module.

Pratt & Whitney je vodilno svetovno podjetje na področju oblikovanja, proizvodnje in servisa letalskih motorjev in pomožnih pogonskih enot.

Pratt & Whitney is a world leader in the design, manufacture and service of aircraft engines and auxiliary power units.

## TRITRI BY SSRD

Dvorana C 20 / Hall C 20

[www.ssr.io](http://www.ssr.io)

Pajkova ulica 22, 2000 Maribor  
Slovenija / Slovenia

TRITRI je oddelek podjetja SSRD specializiran za razvoj brezpilotnih zračnih sistemov (UAS) za delovanje v zaprtih prostorih brez dostopa do GPS signala. Poleg tega razvijamo tudi druge napredne UAS rešitve za različne industrijske in komercialne potrebe. Naše tehnologije zagotavljajo visoko natančnost, zanesljivost in varnost pri izvajanju nalog v zahtevnih okoljih.

TRITRI is a department of SSRD specialized in the development of Unmanned Aerial Systems (UAS) for GPS-denied indoor environments. In addition, we design and manufacture other advanced UAS solutions to meet diverse industrial and commercial requirements. Our technologies ensure high precision, reliability, and safety in challenging operational conditions.

## UL FAKULTETA ZA STROJNIŠTVO

Dvorana K 4 / Hall K 4

[www.fs.uni-lj.si](http://www.fs.uni-lj.si)

Aškerčeva cesta 6, 1000 Ljubljana  
Slovenija / Slovenia

Fakulteta za strojništvo Univerze v Ljubljani (UL FS) je vodilna raziskovalna in izobraževalna institucija v Sloveniji na področju strojništva. Izobraževalno pokriva širok nabor študijskih programov prve, druge in tretje stopnje, ki povezujejo temeljno in aplikativno znanje. Na prvi stopnji projektno-aplikativnega študijskega programa poleg letalskih smeri uvaja tudi vojaški modul, s čimer krepi kompetence prihodnjih strokovnjakov na področju obrambe. Raziskovalno se fakulteta aktivno vključuje tudi v raziskovalne projekte s področij obrambe, varnosti in vesolja. V sodelovanju z domačimi in mednarodnimi partnerji razvija napredne rešitve za obrambne tehnologije, varnostne sisteme ter vesoljske aplikacije. Posebno pozornost namenja prenosu raziskovalnih rezultatov v prakso, kjer združuje akademsko znanje s potrebami industrije. S tem UL FS pomembno prispeva k razvoju nacionalnih zmogljivosti ter krepitvi evropskega raziskovalno-industrijskega prostora na področjih strateške varnosti in tehnologij prihodnosti.

The Faculty of Mechanical Engineering at the University of Ljubljana (UL FS) is the leading research and educational institution in Slovenia in the field of mechanical engineering. Educationally, it covers a wide range of first, second and third-cycle study programmes, which combine fundamental and applied knowledge. In addition to aviation courses, the first-cycle project-applied study programme also introduces a military module, thereby strengthening the competencies of future experts in the field of defence. In terms of research, the faculty is also actively involved in research projects in the fields of defence, security and space. In cooperation with domestic and international partners, it develops advanced solutions for defence technologies, security systems and space applications. It pays special attention to the transfer of research results into practice, where it combines academic knowledge with the needs of industry. In this way, UL FS significantly contributes to the development of national capabilities and the strengthening of the European research and industrial space in the areas of strategic security and future technologies.

## VALHALLA

Dvorana K 25 / Hall K 25

[www.valhalla-turrets.com](http://www.valhalla-turrets.com)  
Pod lipami 2, 1218 Komenda  
Slovenija / Slovenia

Valhalla Turrets je priznano razvojno podjetje, ki uživa ugled v globalni obrambni industriji. Kot visokotehnološko inženirsko podjetje smo specializirani za ustvarjanje naprednih daljinsko vodenih oborožitvenih sistemov za obrambni in varnostni sektor. Tesno sodelujemo z vodilnimi evropskimi in svetovnimi obrambnimi koncerni, s katerimi razvijamo inovativne in zanesljive rešitve po meri končnega uporabnika. Izkoriščamo tudi razvojne in proizvodne sinergije v okviru Grozda obrambne industrije Slovenije. Naša vitka organizacijska struktura nam omogoča učinkovito obravnavo tako malih kot velikih projektov, pri čemer zagotavljamo kakovost vsakega izdelka.

Valhalla Turrets is a renowned development company with a strong reputation in the global defense industry. As a high-tech engineering company, we are specialized in creating advanced remotely controlled weapon systems for the defense and security sector. We work closely with leading European and global defense concerns, with whom we develop innovative and reliable solutions tailored to the end user. We also leverage development and production synergies within the Slovenian Defense Industry Cluster. Our lean organizational structure allows us to efficiently handle both small and large projects, ensuring the quality of each product.

## VERIGA

Dvorana K 8 / Hall K 8

[www.veriga-lesce.com](http://www.veriga-lesce.com)  
Alspka cesta 43, 4248 Lesce  
Slovenija / Slovenia

Tovarna Veriga je bila ustanovljena leta 1922 v Sloveniji. Začela je z proizvodnjo vijakov, odkovkov, težkih sidrskih verig, gozdarskih vlečnih verig, transportnih verig za rudarstvo in različnih verig na meter. Kasneje se je proizvodnja razširila na snežne verige in zaščitne verige za traktorje in težko mehanizacijo ter snežne verige za avtomobile. Takšen proizvodni program v kombinaciji s kakovostjo izdelkov je Verigo uvrstil med največje proizvajalce na evropskem in svetovnem trgu. Vizija podjetja je postati eden od treh največjih proizvajalcev verig za pnevmatike na svetu in za vsako »pnevmatiko« najti primerno zaščito, zato nenehno razvijamo nove izdelke in izboljšujemo obstoječe izdelke v smislu prijaznosti do uporabnika, podpore strankam in skrbi za naše okolje. Naše poslanstvo je nenehno izboljševati kakovost izdelkov in jih približati uporabniku, s ciljem zagotavljanja celovite in kakovostne rešitve. Osredotočamo se na manjše serijske izdelke, kjer dosegamo izjemno dodano vrednost. V zvezi s tem lahko omenimo izdelke po meri, izdelane izključno za potrebe naših strank. Podjetje izvažava v več kot 61 držav, delež izvoza pa znaša več kot 90 %.

The Veriga factory was established in 1922, located in Slovenia. Starting production of screws, forgings, heavy anchor chains, forestry towing chains, transport chains for mining, and various chains by metre. Later, the production expanded onto snow chains and protection chains for tractors and heavy machinery, as well as snow chains for automobiles. Such a production programme combined with the quality of products placed Veriga among the largest manufacturers in the European and global markets. The company's vision is to become one of the three largest manufacturers of tyre chains in the world and find a suitable cover for each "tyre", so we are constantly developing new products and improving existing products in terms of user-friendliness, customer support and care for our environment. Our mission is to constantly improve the quality of products and bring them closer to the user, with the aim of providing a comprehensive and quality solution. We focus on smaller serial products, where we achieve exceptional added value. In this regard we can mention custom made products exclusively for the needs of our customers. The company exports to more than 61 countries, and the share of exports is over 90%.

### PROIZVODNI PROGRAM VSEBUJE:

- Snežne verige za avtomobile, lahka dostavna vozila, terenska vozila, tovornjake, traktorje in težko mehanizacijo;
- Gozdarske verige za traktorje in težko mehanizacijo ter verige za vleko lesa;
- Gosenice za gozdarsko mehanizacijo;
- Zaščitne verige za težko mehanizacijo;
- Dereze za čevlje in drugo športno opremo."

### THE PRODUCTION PROGRAMME CONTAINS:

- Snow chains for cars, light delivery vehicles, 4x4s, lorries, tractors, and heavy machinery;
- Forestry chains for tractors and heavy machinery chains for wood towing;
- Tracks for forestry machinery;
- Protective chains for heavy machinery;
- Walking crampons for shoes and other sports equipment.

## VIP-VIRANT IZDELKI TEHNIČNIH PRODUKTOV, D.O.O.

Dvorana K 4 / Hall K 4

www.vip-virant.com  
Pod brezami 1, 1218 Komenda  
Slovenija / Slovenia

Družba VIP-VIRANT je evropsko tehnološko podjetje z več kot 30-letnimi izkušnjami, specializirano za visokotehnološke mehatronske sisteme za različne industrije (avtomobilsko, strojno, medicino) ter antensko tehnologijo. Podjetje ima sedež v Sloveniji in več operativnih podružnic po Evropi. Ena od njegovih specializacij so rešitve za prenos signalov in podatkov med vozili ter znotraj njih, ki vključujejo izdelke, prilagojene potrebam in zahtevam strank.

Podjetje je zanesljiv dobavitelj prvega reda (TIER 1) z razvito celotno vertikalno integracijo za končnega kupca. Vodilnim svetovnim organizacijam v ustreznih panogah ponuja različne tehnologije in programe z različno stopnjo dodane vrednosti. V zadnjem desetletju se je podjetje razvilo v pionirja električne mobilnosti nove generacije. V središču te preobrazbe je njegov vodilni projekt:

- "VIPI eMobility"- popolnoma električni, modularni koncept vozila, ki vključuje napredne mehatronske in digitalne sisteme ter nadgradnjo koncepta z najnovejšimi patentiranimi inovacijami. Izdelanih je bilo že 30 osnovnih prototipnih vozil.

Izdelki in ponudba podjetja VIP-VIRANT

- "NEUROPULSE"- naprava za povečanje odpornosti vojaka; mobilna, lahka naprava za kognitivno in taktično osredotočenost, mišično-živčno odpornost ter okrevanje po stresnih situacijah;
- "SEE-WELL"- inovativen zaščitni pokrov za kamero (video nadzor), ki omogoča dolgotrajno jasno sliko in visoko ločljivost tudi v ekstremnih okoliščinah;
- "T-LEG"- v razvoju; inovativen pripomoček za hojo, ki uporabniku s poškodovano nogo omogoča gibanje brez bergel, s prostimi rokami za druge naloge;
- Baterijski sistemi za shranjevanje energije;
- Montažna proizvodnja;
- Antene, visokofrekvenčna tehnologija;
- Polaganje tiskanih vezij;
- Visokotlačno brizganje plastike s horizontalno in vertikalno tehnologijo;
- Nizkotlačno brizganje plastike (Hotmelt);
- Izdelava kablskih snopov;
- Proizvodnja plastičnih kablov (FFC);
- Obdelava kovin;
- Razvoj/proizvodnja preciznih orodij.

VIP-VIRANT is a European technology company with over 30 years of experience, specializing in high-tech mechatronic systems for various industries (automotive, mechanical, medical) and antenna technology. The company is headquartered in Slovenia and has several operational branches across Europe. One of its specializations is solutions for signal and data transmission between and within vehicles, which include products tailored to the needs and requirements of customers. The company is a reliable Tier 1 supplier with developed full vertical integration for the end customer. It offers various technologies and programs with different levels of added value to leading global organizations in relevant industries. Over the past decade, the company has developed into a pioneer of new-generation electric mobility. At the heart of this transformation is its flagship project:

- "VIPI eMobility" – a fully electric, modular vehicle concept that incorporates advanced mechatronic and digital systems and upgrades the concept with the latest patented innovations. Thirty basic prototype vehicles have already been built.

VIP-VIRANT products and offerings

- "NEUROPULSE" – a device for increasing soldier resilience; a mobile, lightweight device for cognitive and tactical focus, muscle-nerve resilience, and recovery from stressful situations;
- "SEE-WELL" – an innovative protective cover for cameras (video surveillance) that provides long-lasting clear images and high resolution even in extreme conditions;
- "T-LEG" – under development; an innovative walking aid that allows users with leg injuries to move without crutches, leaving their hands free for other tasks;
- Battery systems for energy storage;
- Assembly production;
- Antennas, high-frequency technology;
- Printed circuit board assembly;
- High-pressure plastic injection molding with horizontal and vertical technology;
- Low-pressure plastic injection molding (Hotmelt);
- Cable harness manufacturing;
- Plastic cable manufacturing (FFC);
- Metalworking;
- Development/manufacturing of precision tools.
